

RUSSIAN WARSHIPS AT MANILA MUST BE INTERNED

TAFT IS FIRM IN DECISION

Russians Must Sail At Once Or Get Out of Business.

WASHINGTON, June 5.—Secretary Taft today cabled Governor Wright at Manila to inform Admiral Enquist that in strict pursuance of the policy adopted by this government he will be allowed to intern his ships, the Aurora, Oleg and Jemchug, at Manila.

In case he does not adopt this course, his only alternative, after the period allowed by international law has expired, will be to put to sea. It is fully expected here that Admiral Enquist will decide to intern his ships and orders have been issued for Admiral Train to take charge of the details of internment if the Russian government decides to follow this policy.

Admiral Enquist will not be allowed to repair his ships at Manila. This government has decided that as the injuries to the vessels were not caused either by the sea or storm, they will be obliged to refuse permission for the vessels to be repaired there. Today Secretary Taft cabled the following instructions to Governor Wright at Manila regarding the ships:

"TIME CANNOT BE GIVEN FOR THE REPAIR OF THE INJURIES RECEIVED IN BATTLE. THEREFORE THE VESSELS CANNOT BE REPAIRED UNLESS INTERNED UNTIL THE END OF HOSTILITIES."

Admiral Train has been instructed accordingly. It was stated by Secretary Taft that if the Russian vessels agreed to leave Manila in their present condition they were welcome to do so, but as it did not appear that they suffered from any damage caused by the sea or storm, this government would be obliged to take the position above outlined.

THE DECISION.
The President's decision regarding the disposition of the Russian war vessels at Manila, that they shall intern or put to sea, is, it is said here, in accordance with the best naval opinion and is in pursuance of the policy of strict neutrality followed by the Washington government from the beginning of the war.

It is specifically declared that there is no intention to show the slightest favoritism in the matter and everything possible will be done for the comfort of the wounded Russians. The ships, when interned, will, of course, be allowed to be put in habitable condition and such repairs as are necessary to keep them afloat will be allowed. The decision of the President was made after conferences with Secretaries Morton and Taft.

TAFT'S ACTION.

After Secretary Taft returned to the War Department he made public his instructions to Governor Wright, who is the medium of communication between the Washington government and Admiral Enquist.

Rear-Admiral Converse, chief

KING OF ENGLAND GREETED BY KING OF SPAIN.

Alfonso Says Farewell to People of France and Becomes Guest of the British.

CHERBOURG, June 5.—The royal train bearing King Alfonso from Paris arrived here at an early hour this morning. The King proceeded on board the British royal yacht Victoria and Albert, where the British greetings and French farewells were exchanged.

The yacht then sailed for England, escorted by the British squadron and a French torpedo boat flotilla.

PORTSMOUTH, Eng., June 5.—The King of Spain arrived here this afternoon from Cherbourg on board the British royal yacht Victoria and Albert. The yacht was accompanied across the channel by a strong escort of British cruisers and torpedo boat destroyers.

The royal visitor was welcomed at the British naval headquarters by an imposing array of warships, a score of which fired a royal salute as the Victoria and Albert passed through their lines.

The young King, who wore the uniform of a British general, with a ribbon of the order of the Garter, stood on deck, evidently keenly enjoying the spectacle, despite the fact that it was pouring rain.

The Prince of Wales, with King Edward, awaited the yacht at the quay side and immediately after the gangway was run up he went on board and warmly welcomed the Spanish ruler.

Their respective suites were then introduced and subsequently the Mayor and corporation of Portsmouth presented King Alfonso with an address of welcome.

King Alfonso, who was the first King of Spain who has ever landed in England, disembarked at 2:20 p. m., accompanied by the Prince of Wales. His Majesty inspected the guard of honor in a drenching rain and subsequently took a train for London amidst the firing of another royal salute.

LONDON, June 5, 4:43 p. m.—The King of Spain arrived in London this afternoon. He was welcomed at the railroad station by King Edward. Their majesties arrived at Buckingham Palace at 4:48 p. m. The royal visitor was accorded the warmest reception the whole length of the route. No untoward incident marked the event.

AT THE STATION.
King Edward, in the uniform of a Spanish admiral, had driven up to Victoria station just before the arrival of King Alfonso, and as the train which conveyed him from Portsmouth drew up at the platform, King Edward advanced to receive his young guest, whom he cordially embraced.

The station was gaily decorated, the arrival platform being a blaze of color.

IN STATE CARRIAGE.
After a brief conversation the two monarchs entered a state carriage with the Prince of Wales and the Duke

of the Bureau of Navigation, personally took charge of the preparation of instructions to Rear-Admiral Train, who is to be in supreme charge of the details of internment, this being the practice followed when the Lena put into port at San Francisco and was interned under the direction of the Commandant of the Mare Island navy yard.

The instructions to Admiral Train, when completed, will be approved by the Secretary and cabled to Manila in the expectation that Admiral Enquist will forthwith decide to intern in view of the bad condition of his vessels.

So far as can be learned, the Japanese government has shown no concern regarding the course of action to be taken by this government. Mr. Takahira, the Japanese minister, said today:

"We have every confidence that the policy to be followed will be in strict accord with the neutrality

KING ALFONSO OF SPAIN

of Connaught, and amid the great cheering from the big crowds assembled, started to Buckingham Palace, followed by half a dozen coaches with the officers of state and suites. The Spanish King everywhere met with the warmest reception.

The labors of the army of decorators, who transformed the London streets into a triumphal archway of varied-colored flags, bunting and artificial flowers in which the yellow and red of Spain predominated, were rendered almost futile by the downpour of rain, which, starting early this morning, continued all day.

POLICE DETAILS.
The police details were extraordinarily minute. In fact, they were such as never before had been witnessed in London. Everybody, with the exception of those officers connected with the reception, was cleared out of the station and its precincts. Policemen in plain clothes and secret service men were scattered along the whole route.

so carefully maintained, by the Washington government."

ADMIRAL URIU ON FLAGSHIP

SHANGHAI, June 5.—The flagship Tokiwa, under Vice-Admiral Uriu and the cruisers Naniwa and Takachiho and the destroyers Murasame and Sazanami, have arrived off Gutzlaff Island, Hang Chow Bay. More cruisers are expected.

Vice-Admiral Uriu came from the Tsu Islands, around Formosa, looking for Russian vessels. During the battle of the Sea of Japan a shell passed through the Tokiwa's aft, but did not explode.

FIRE IN FRANCE

ETIENNE, France, June 5.—Fire has destroyed an extensive portion of the business quarter of this city. The loss is estimated at \$300,000.

PEACE NOT IN SIGHT

President's Talk With Cassini Does Not Bear Fruit.

ST. PETERSBURG, June 5, 7:45 p. m.—The interview between President Roosevelt and Ambassador Cassini at Washington regarding peace in the Far East has not borne fruit here. Foreign Minister Lamsdorff has not yet visited Tsarkoe-Selo, but will lay Count Cassini's dispatch before the Emperor tomorrow, the regular audience day.

The Associated Press was informed at the Foreign Office that Count Cassini's report places the whole conversation in a purely informal light, and it is expected that Russia's answer will be returned in an equally informal manner.

The officials did not hesitate to express the opinion that the determination to continue the war was fixed and definite.

They seemed pleased with President Roosevelt's friendly spirit, which was manifested in such a form as not to require a formal reply.

Ambassador Meyer did not receive any dispatches on the subject during the day and after the flutter of excitement in diplomatic circles caused by the press dispatches regarding the Washington interview, the representatives of the powers here are disposed to look upon the attempts to end the war as fruitless until after a land battle at least.

RUSSIANS SHIPS AGAIN ACTIVE

HONGKONG, June 5.—Vessels of the Russian volunteer fleet are overhauling merchantmen in the waters northeast of this port, according to a report made by the British steamer Ping Suey, which arrived here today. The commander of the Ping Suey says he saw four steamers overhauled fifty miles from here by two volunteer fleet steamers.

APACHE ARRIVES SAFELY IN PORT

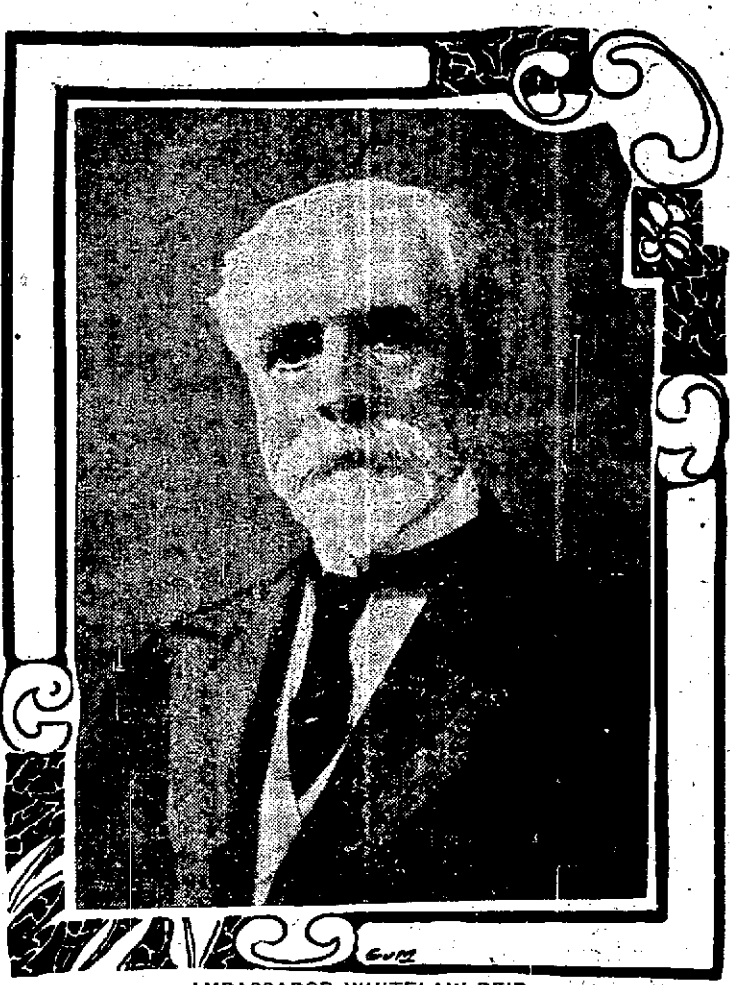

FALMOUTH, Eng., June 5.—The American yacht Apache arrived here during the day. The extraordinary delay in her arrival was due to her going too far north and experiencing a series of calms on the Banks of Newfoundland. The yacht's movements were so slow that the crew indulged in codfishing. Subsequently the Apache encountered four heavy gales.

SUEZ COMPANY PAY DIVIDEND

PARIS, June 5.—The report of the Suez Canal Company for 1904, to be presented tomorrow, proposes a dividend of 141 francs per share, not 14.1 per cent, as cable last night.

SAYS WIFE IS INSANE.
BERKELEY, June 5.—Miss Mary Linstead, residing at 284 Eighth street in West Berkeley, was arrested this morning by Deputy Marshal Jameson upon complaint of her husband, who charges her with insanity. The woman is about thirty-five years of age. She was removed to the Receiving Hospital.

AMBASSADOR REID CALLS ON KING EDWARD.

AMBASSADOR WHITELAW REID

He is Given a Warm Reception at the Palace—Queen Meets the Ladies.

LONDON, June 5.—Whitelaw Reid, the new American Ambassador, had an audience with King Edward at Buckingham Palace at noon today and presented his credentials.

Three royal carriages were sent to Dorchester House to convey the Ambassador and the members of his embassy, to the palace. The first was occupied by Mr. Reid and Col. Douglas Dawson, the King's master of ceremonies. Secretary Carter, Captain Stockton, the naval attaché; Mayor Beacom, the military attaché; Second Secretary Craig Wadsworth and Third Secretary Einstein occupied the other carriages.

At the palace Mr. Reid was received by the great officers of state.

CORDIAL RECEPTION.

Foreign Secretary Lansdowne drove up to the palace at about the same time as the Ambassador, whom he introduced to the King. The latter wore a Field Marshal's uniform and was surrounded by his suite. His Majesty's reception of the American Ambassador was most cordial.

While the Ambassador was presenting the King with his credentials Queen Alexandra was receiving Mrs. Reid and Miss Reid. Her Majesty showed them the in-

teresting objects in the palace.

HAY'S VISIT.

Secretary Hay paid a formal visit to the American Embassy this morning. The conversation between the King and the Ambassador was quite lengthy. His Majesty recalled Mr. Reid's previous visits to London and expressed the greatest pleasure at the good relations between the United States and Great Britain. The King also spoke a few words to each member of the Embassy.

WITH THE QUEEN.

After the official reception, Mr. Reid was ushered up stairs, where his wife and daughter were with the Queen, and the Ambassador was presented to Her Majesty. King Edward also came in and Mrs. and Miss Reid were presented to him. The King and the Ambassador thereupon engaged in further conversation.

The visit altogether lasted forty minutes, after which the Ambassador and his party returned to Dorchester House in the state carriage, with coachmen and footmen garbed in long scarlet cloaks.

MADE CALLS.

The Ambassador this morning called on all the ambassadors and ministers accredited to the Court of St. James. The Ambassador has a busy week ahead. On Tuesday he will be presented at the reception of the King of Spain at Buckingham Palace, and he will attend with Mrs. Reid the state banquet at the palace the same evening. Wednesday Mr. Reid will be one of the guests of Lord Lansdowne's reception to the Spanish King; Thursday, with Mrs. Reid and Miss Reid, the Ambassador will attend the review of troops at Aldershot; they will be present at the gala opera performance in the evening, and Friday will attend the court.

declined to accept. Dasso drew a revolver and ordered the young woman to get out of Peet's buggy.

She refused and Dasso shot her in the mouth and then fired a bullet into Peet's breast. Peet will probably die and the girl also is in a critical condition. Dasso escaped.

TRIBUNE SUBSCRIBERS

CAN HAVE THE PAPER SENT TO THEM IN THE COUNTRY DURING VACATION WITHOUT EXTRA CHARGE. TELEPHONE TO EXCHANGE 3 OR DROP A POSTAL TO THE TRIBUNE OFFICE, GIVING PRESENT ADDRESS AND THE POST OFFICE TO WHICH YOU DESIRE THE PAPER MAILED.

TREPOFF RULES IN RUSSIA

Terror of the Anarchists is Given Increased Powers.

ST. PETERSBURG, June 5.—General Trepoft went to Tsarkoe-Selo today to thank the Emperor for his appointment as assistant minister of the interior and to confer with His Majesty regarding the exercise of the great powers and heavy responsibilities entrusted to him by the Czar, which was published in the official Messenger this morning.

Curiously, the publication of the assignment of General Trepoft is not yet gazetted, and the public is chiefly busied on the use which Major General Rydzky, Trepoft's predecessor as assistant minister, who is a notably strong man and like M. Yermoff, former minister of agriculture, has been given a seat in the Senate, will make of his new powers.

In government circles the appointment of General Trepoft as assistant minister of the interior, widening the scope of his authority so that he may accomplish in the whole empire what he has done in St. Petersburg since January 22 is regarded as an obvious step for the Emperor to take if he is determined not to abandon the fundamental principles of Russian rule and transform the autocracy into a limited monarchy of the West-European type.

It is claimed that Trepoft, since his appointment as governor-general of St. Petersburg, has maintained order here, has prevented a recrudescence of the tumult of January 22 without loss of life and has handled the situation with the needed firmness, yet without giving cause for complaint as the late Von Plehve did by the adoption of unnecessarily stringent and arbitrary measures.

MURDERS LAID TO HIM

BELIEVE YOUTH KILLED TWO GIRLS, THEN SHOT HIMSELF.

HILLSBORO, O., June 5.—Developments today in the killing of Madge Dines, aged 15, and Nellie Hart, aged 16, the former the daughter and the latter the servant of Edward Dines, a farmer living a mile from here, led the authorities to believe that the girls were killed by David Baldwin, a farm hand, aged 19, who then blew off his head with a shotgun. It was at first thought that all three had been murdered by some unknown fiend.

The girls were found shot dead in their bedroom, and evidences showed a desperate struggle. Baldwin, who had been taken in as a tramp by the farmer, was found in the living room with a discharged shotgun by his side.

ARRESTED AND HELD AS SUSPECTS

MARSEILLES, June 5.—Two anarchists, two Spaniards and an Italian who arrived here from Paris, have been arrested on suspicion of complicity in the attempt on the life of King Alfonso at Paris, May 21.

NEWSPAPERS CONSOLIDATE.

ST. LOUIS, June 5.—The St. Louis Star and St. Louis Chronicle, both afternoon newspapers, published announcements today of their consolidation under the name "The Star-Chronicle." Negotiations were closed today by which the consolidation goes into effect tomorrow and the new corporation will be known as the Star-Chronicle Publishing Company, with a capital stock of \$500,000. The paper, it is announced, will be independent and will be issued from the Star building. Milton B. McRae will be president and Nathan Frank, former owner of the Star, vice president.

SHOT GIRL AND HER LOVER

DESPERATE ACT OF FARM HAND WHO HAD BEEN REJECTED.

ROCKFORD, Ill., June 5.—Miss Belle Harrison, returning from church at Hebron, in company with Charles Peet last night, met Dell Dasso, a farm hand, whose attentions she had

EDSON F. ADAMS,
Director.

LOS ANGELES ENTERTAINING IN HIGH FAVOR WITH SULTAN

Supreme Knight Hearn and His Council Welcomed Today— Reception Tonight

LOS ANGELES, June 5.—This week in Los Angeles will be devoted chiefly to the reception and entertainment of the Knights of Columbus and their friends who are coming from all sections of the Union to attend the national convention of the order.

Many reached here yesterday and today, and by tomorrow, when the serious work of the meeting begins, all the delayed trains will have reached here and the city will contain about 15,000 visitors.

The principal event today was the arrival of Supreme Knight E. L. Hearn and the members of his council, who came on a special train over the new Salt Lake road.

The supreme officers were met at San Bernardino by members of the reception committee, who acted as an escort of honor to this city.

On arriving at the depot on the

bank of the Los Angeles river, the party was given a hearty meeting by hundreds of waiting Knights and ladies.

A procession, headed by the League of the Cross band from San Francisco was formed and marched through the principal streets to the Anselmi hotel, where the Supreme Knight at once established his headquarters.

Then came a rest for refreshments, after which nearly all of the visitors boarded special cars provided by the local committees and went to the shores of the Pacific at Long Beach, where the day was devoted to pleasure.

Tonight the visiting Knights will be given a public reception by the Chamber of Commerce, at which United States Senator Flint, Acting Governor Anderson, Mayor McAlister and many other prominent citizens of the State and city will speak.

GERMANY AND ENGLAND ARE TAKING GREAT INTEREST IN MOROCCO.

FEZ, Morocco, Friday, June 2.—No doubt is entertained in diplomatic circles that the proposal of Morocco to submit the French proposals to a conference of the Powers signatory of the Madrid convention will be categorically declined by the British, French, Spanish and Russian governments. Uncertainty prevails regarding the attitude of the other powers. It is thought in some quarters that Germany may utilize the Moorish proposals as a pretext to enter into direct negotiations with France, in which case the Moroccan question may possibly be settled in Paris or Berlin.

The fact that the Moorish decision was launched on the eve of the arrival here of Gerald Lowther, the British Minister, is commented upon and is regarded as being a distinct mark of discourtesy to the British government. Count von Tattenbach-Ashold, head of the German mission, is evidently in high favor at the palace, where he has frequent interviews with the Sultan.

REFORM PROPOSALS

PARIS, June 5.—Strong tension is developing in the Cabinet as the result of the rejection by the Sultan of Morocco of the French reform proposals. The situation is similar to that when Foreign Minister Delcasse suddenly presented his resignation. He has not given any indication of his purposes, but reports circulate in well informed quarters that he may retire if his Moroccan policy does not receive the united support of the ministers. It is expected that the Sultan's action in proposing to refer the question to an international conference will be submitted to the Council of Ministers tomorrow. The question of its acceptance or rejection is likely to involve also the Cabinet situation.

COST OF COUNTY INFIRMARY

BOOKS WILL BE EXAMINED IN ORDER TO SHOW THE TRUTH.

At the meeting of the Supervisors this morning Supervisor Kelley moved that the county expert compare the accounts of the County Infirmary with those of that institution on the Auditor's books. Dr. Clark, superintendent of the Infirmary, said that from time to time stories had been put in circulation regarding the accounts of the Infirmary and the expenses of the same. It would please him greatly to have the examination referred to made and he would accordingly like to have the resolution in question adopted.

"It has been stated," said Supervisor Mitchell, "and I have seen it referred to in an editorial in the San Francisco Chronicle, that the cost of maintaining the County Infirmary was \$150,000 a year. Now, I want to ask you, Dr. Clark, if that is true?"

"No, it is not," replied the doctor. "Of course, I would say that the expense was only between \$80,000 and \$75,000. It is a per capita of about 65 cents."

"That is lower than in Santa Clara and Sacramento counties?" inquired Chairman Mitchell of Dr. Clark.

The resolution of Supervisor Kelley was adopted by the votes of Supervisors Horner, Kelley, Mitchell and Talcott. Supervisor Rowe was excused from voting at his request, because, as he said, he was absent from the room during the discussion of the subject and knew nothing about the matter.

BIG ALLIGATORS.

"If ever you have the luck to be caught by an alligator, put a finger in each eye," says an old Australian hunter, "that will save the effect of making it open its jaws, and they you can make the most of your opportunity. There are several known instances of the escape of natives by that means. Alligators prefer their food high, so the chances are if you are caught you will be deposited on the bottom somewhere. I heard of one native escaping even then. When crossing the river the natives carry stout sticks, so if encountered by an alligator they can ward him off by shoving a stick down his throat."

"One day a live alligator, a twelve-footer was brought in by the natives. It was well lashed down, and then we began operation on it. We were proceeding nicely, with great satisfaction to ourselves if not to the alligator, when one of the Malays, in easing off the tail lashing, gave it too much grift. Suddenly there was a windmill display and the tip of the tail caught me on the side of the head. I did an involuntary fly and came down on the Malay, who had a sharp knife in his hand, which gave me a bad gash on the left palm."

"That alligators have enormous strength have evidence, besides my own experience. At Port Essington a buffalo was drinking in a stream when an alligator nailed it by the head and drowned it. Soon afterward a horse was caught while drinking at the same spot. It dragged the alligator about forty yards before the brute let go. Mr. Robinson anchored the body of the horse a little distance out from a cliff close to his camp. In due time he had his chance and shot a fifteen-foot alligator."

SENTENCED TO EIGHT YEARS.

NEW YORK, June 5.—Samuel Lobley, who confessed to taking part in an alleged conspiracy by which the Equitable Life Assurance Society was induced to loan \$50,000 on a life insurance policy that had been stolen from its vaults, today was sentenced to eight years in Sing Sing prison.

COMMITTEE ATTEMPTS TO GIVE WELL KNOWN WOMAN ENDS HER LIFE IN THE NORTH.

At the meeting of the Board of Supervisors this morning, the following communication from the Committee of One Hundred touching the manner of the handling county money, was read:

"Oakland, June 2, 1905. To the Board of Supervisors of Alameda County, Gentlemen: The attention of the Committee of One Hundred has been called to the fact that it has cost this county, for the ten months of the present fiscal year, an average of about \$10,000 per month running expense for the maintenance of the County Infirmary and indigent poor. The committee respectfully calls your attention to the fact that the sum of \$10,000 per month is not remaining in the County Infirmary fund the sum of only \$5,230.91 out of which must be paid the expense of running that institution for the month of May and June, 1905. Sections 6, 7 and 36 of the county government act read as follows, and to which sections your attention is particularly directed:

"Section 6.—All contracts, authorizations, allowances, payments and liabilities to pay, made or attempted to be made in violation of this act shall be absolutely void and shall never be a charge against the county treasury or the treasury of said county and the extent of the claims against the same."

"Section 7.—Any officer authorizing or allowing any claim or demand upon or against said treasury or any fund thereof in violation of any of the provisions of this act or the constitution of this state shall be liable in person and upon his official bond to the person or persons damaged by such illegal authorization or allowing of his or their claims by reason of the non-payment of his or their claims."

"Section 36.—The board must not for any purpose contract debts or liabilities in any manner or for any purpose, which exceed in any fiscal year the income and revenue provided for such year, except as permitted by the constitution."

"The Committee of One Hundred is well aware of the fact that the Board of Supervisors claimed the right under Section 25, Subdivision 18, of the county government act to transfer county money from one fund to another."

"The committee claims, however, that Subdivision 18 of the county government act is unconstitutional and therefore void."

"The Committee of One Hundred claims that all county funds must be used only for the purpose for which they were levied and collected and for no other purpose."

"Therefore, the Committee of One Hundred do hereby notify you, the Board of Supervisors, that the Board of said County of Supervisors, and individually, as well as will be held to strict account for the use and expenditure of lawful over-draw of said infirmary fund or illegal and unlawful expenditure of county funds, or from any other county fund."

"You are also notified that if it becomes necessary, suit at law will be commenced against you, the Board of Supervisors and also as individuals to recover back into the county treasury for the use and expenditure of persons damaged by you by reason of any illegal act of yours contrary to the provisions of Sections 6 and 7 of the county government act and also for the use and benefit of the people at large of said Alameda county. Yours respectfully,

"HARRY N. JOHNSON, Chairman of the Committee of One Hundred."

"E. R. TAIT, Secretary of the Committee of One Hundred."

"The communication," said Chairman Mitchell, "will be referred to the Committee of the Whole in conjunction with the other business."

"If there were any more ex-candidates for Supervisor, it would add to the number of the committee of One Hundred. Everyone of them would be a candidate at the last election are members."

Later, Chairman Mitchell reconsidered the reference of the communication and said the document would be placed on the list instead of being referred to the Committee of the Whole.

SMALL RIOT IN JAP RESTURANT

Joseph Brown, John Harrington and Fred Jackson were arrested last night on the complaint of James Tanakapa, a restaurant keeper at the corner of Eighth street and Broadway, on a charge of riotous conduct. The three men are alleged to have eaten a meal and refused to pay for it. The proprietor in trying to collect his money precipitated a small riot, which resulted in breaking a large bottle of glass. The three men will pay for the glass they will not be prosecuted, says the Japanese.

ADVANCE OF WOMEN.

It is remarkable that so many of the women who first entered the battle for an extension of the political rights and privileges survived so long. Mrs. Elizabeth Cady Stanton, Lucy Stone and Anna Dickinson survived to a great old age. Mrs. Livermore was well past 80. Susan B. Anthony still survives, and Julia Ward Howe continues to write poetry. There are others who could be named, but these are enough to show that the intellectual work for women is not injurious to the health. When these women began their campaign before the civil war they were generally looked at, just as some of the leading abolitionists were, as being of the same period. They were called crazy, unfeminine and many harder names. Still the movement grew, and although woman's suffrage has been confined to leading states except for certain local matters the laws have been changed so that at the present woman is much better protected than man. The safeguards thrown around the sex have come rather grudgingly, until of late, and now it seems to be only a question of time when woman will ask for in order to get it.—Philadelphia Inquirer.

PROMINENT WOMAN DEAD.

SAN JOSE, June 5.—Mrs. Amanda Hobbs, a prominent woman of this city, died yesterday, aged 73 years. She was a native of Boston. In early childhood Mrs. Hobbs came with her parents to California and here she became the wife of the late Colonel A. Hobbs. She was well known as one of the pioneers of this State. For several years the family lived in Virginia City, moving to San Jose about the year 1870. The children surviving are Mrs. Ernest L. Dawson and Mrs. William B. Bowden. Miss Bessie C. Hobbs is a granddaughter of Mrs. Hobbs.

SUSPENSE PUBLICATION.

EMPORIA, Kans., June 5.—The Emporia Republican, the oldest daily paper in the city, founded in 1881 by Lieutenant Governor Eskridge, today suspended publication.

HER CLAIM IS ACCEPTS A BRIBE RECOGNIZED PAYS FINE

GIRL, WHOSE FATHER LEFT HER BARREN LAND, WILL SHARE ESTATE.

There is to be no contest over the will of the late Frank Silva of Pleasanton, who died in March of this year, leaving an estate of the value of \$50,000.

By his will he left one of his children, his daughter Mary E. Silverta, a quarter section of land on a mountain top that was almost inaccessible and barren and of no value. While to his other five children he parceled out broad acres of fertile land that went to make up his large holdings.

Proceedings were brought by Attorneys Harris and Donahue of Pleasanton in behalf of the daughter to have her father's will set aside on the ground that he was incompetent to make one. The widow and the other children, however, recognizing the claim of this one daughter by a document filed with the county clerk today will agree to let the mountain top revert to the estate and allow her to share equally with the others.

The story behind the queer bequest of the father, who gave his daughter a stone instead of bread had its origin in the fact that Silva upon the death of his first wife wished to marry his niece, Maryano Lopez, a young girl, but whom he found in the law would not permit him to wed. The girl was living in the house with her other cousins and her presence there was objected to by Mrs. Silverta and she upbraided her father on account of his actions. The old man bore his displeasure in silence, but when he made out his will he got an accurate description of a worthless piece of land way out in the hills without an approach and left it to her.

His children, however, do not care about taking up the quarrel of their parent and today they had their Attorneys Clark and Clark file an agreement to allow their sister to share with them in the estate.

EXPERTS IN CHECK RAISING.

A recent trial for check raising in New York brought out the fact that the five most expert check raisers in the country are under pension from the Bankers' Association not to ply their illegal trade. The question now arises whether one of the five has broken faith or whether a new check-raising genius has appeared.—Boston Traveler.

This is now the only Wheeler & Wilson Office in Oakland.

OLD MEANINGS OF WORDS.

The festival of the invention of the cross, which commemorates the discovery of the true cross at Jerusalem by St. Helena, celebrated on May 3, keeps alive the old, general meaning of "invention" that seems strange to the modern eye and ears. "Invention" signifies simply "finding," though the meaning of "discovery" has been specialized away from it in modern speech. Thus Hooker wrote of "that judicial method which seemed best for the invention of truth." When Burton wrote of "the invention of a geometrical problem" he meant its solution. In the seventeenth century the circulation of the blood was described as "the best and most useful invention of this latter age," and in the eighteenth century Dr. Willis was referred to as "the first inventor of the nervous system."

English surgeon, Treves, the celebrated "nerve" man, has no nervous system and that "nerves," as western nations know the term, is untranslatable in Japan. This invites a reference to the significant history of the words "nervous" and "nervous." A "nerve" by derivation from Greek and Latin and by early English use, is really a sinew. When Pope speaks of "nervous armaments" he means exactly the "brawny arms" of the village blacksmith; and this sense survives metaphorically in a "nervous style of writing," which is very different from a "neurotic" one. Shakespeare used "nervy" in the same sense. But now that "nervous" no longer means sinews, "nervous" in the common use has almost reversed its old meaning. In Dr. Johnson's time, "nervous" in the modern sense was still only "medical care." Now men of "nervous" are very different from men of "nerves."

These English verbs "doff" and "do" are merely contractions of "do off" and "do on." Similarly "dup" which means to "open" a door in Shakespeare is to "do up"—to lift the latch.

THE CAVALRY COP.

Sure, Lacy an' Casey, O'Reilly an' Flynn.
A-kapin' the crossin', bein' illigant min!
A half-buck away the white caps av thim shine
Whilist they shoo the blasphemous thruckmin in line
Or biddin' thim fresh automobiles shlop
A slight f'r sore eyes is a cavalry cop!

The horses they shand as if sculped out of stone;

The pride av the craytures most plainly is shown

In the arch of the neck and the gleam av the eye.

"Tie Flynn that I carry; mind how ye pass by!"

A WOMAN'S POLITICS

Man is always doing politics, and he is always upbraiding woman for following his example. There is one place, however, where a woman can do something politic for which she will not be upbraided. It is in a kitchen. Her cranky political husband can be won over on every occasion by a gas stove.

You see, it will help to keep the house clean; it will insure well-cooked meals on time; it will result in smaller expenses for the household; it will keep you in such a sweet temper that the house will appear to be full of sunshine all the time. If this is not enough to induce you to sell the old, cracked, unreliable coal stove that goes with the wind, to an old junk man, then your case is indeed hopeless.

KILLED IN RACE RIOT

White Man and Three Negroes Are Slain.

AUGUSTA, Ga., June 5.—Reports reached here today that a race riot had occurred at Turner, S. C., in which it is said a white man named McLean was killed, his son wounded and three negroes killed. But meager information has been received here and the causes and details of the trouble are not yet obtainable.

JAPANESE TELLS OF SUCCESS

TOKIO, June 5, 1.30 p. m.—The following announcement was made today from the headquarters of the Japanese army in Manchuria:

"Early in the morning of June 3d, the enemy's infantry and cavalry to the number of some 300 men, attacked Ching-shan, seven miles northeast of Changshai, but were easily repulsed.

"The same day at 9.30 in the morning some twenty squadrons of the enemy's force advanced south of Tsing-shan on the Kiang-Ping Chiatung road, some fifty miles northwest of Panshan. A portion of the same force attacked Shintsuha, nine miles northeast of Kwang Ping, but suffered heavy loss by our artillery posted in the vicinity. Our casualties were four men slightly wounded. The enemy's loss exceeded 100 men."

MILES OF TRACK WASHED AWAY

TELLURIDE, Colo., June 5.—Traffic on the Rio Grande Southern Railway between Rico and Durango is paralyzed. It is reported that twenty-eight miles of track have been washed out by the Dolores river, near Dolores station. Two or three bridges have also been carried away. The running time of trains between Rico and Durango has been annulled indefinitely. All the wreck trains at the command of the road are at the scene of the wash-out. It is not known how long it will require to make repairs, but it will probably be two weeks. No tickets are being sold for transportation between these cities.

POINTED PARAGRAPHS.

Love is blind to the interests of all gas companies.

Some men are too lazy to make either enemies or friends.

It takes a lot of rehearsing to make the average man honest.

Only a born diplomat can be frank and popular at the same time.

The plainer the woman the longer it takes her to select a becoming bonnet.

A young man may be as old as he feels, but he is seldom as rich as he looks.

Many a man has died without a struggle who found it impossible to live that way.

A girl who can love but once spends the most of her time in front of a mirror.

No woman would ever quarrel with a man if it wasn't for the pleasure of making it up again.

A girl doesn't really believe that a young man never made love to another girl, but she says she does.

He who doesn't marry a young woman in the bachelor class to the end, according to a despondent bard.

There are a lot of things that a man would not want half so much as he thought there was any chance of getting them.

When an engagement is announced in a small town the rest of the inhabitants begin to discuss which of the two contracting parties is going to get the worst of it.—Chicago News.

PICNIC OF LUTHERAN SUNDAY SCHOOL

The Sunday school and friends of the German Lutheran Church of Alameda county will picnic tomorrow at Fernbrook Park. Train leaves First Broadway at 8:30 and will stop at East Oakland, Twenty-third avenue, Fruitvale and Pichburg. An excellent program has been prepared, including music by a brass band of fourteen pieces, races for prizes and many other features. Everybody welcome.

TO PROPOSE INCREASE IN SEWERAGE SYSTEM.

City Engineer Turner Would Build New Drains For District Below Seventh Street.

City Engineer Turner will recommend to the Council tonight that steps be taken to build outlet sewers for all of the districts lying south of the Seventh street railroad tracks both in East and West Oakland. Turner states that it is probable that the expenditure will exceed that provided by the ordinary current revenue, and it is possible that a bond issue will be called to have the territory adequately sewered. The cost is estimated at something over \$100,000.

The City Engineer recommends to the Council that a special committee be appointed to confer with the Board of Public Works on the matter.

"The sewers are of vital interest to the city," says Turner. "The only outlets now are wooden box sewers which are in a bad state of repair. The numerous trains crossing the marshes, and the prospects of more trains crossing the sewers in the immediate future makes it imperative that the sewers be built or else there is danger of serious consequence."

It is probable that Mayor Mott, who heartily endorses the plan of building the needed intercepting sewers, will at the same time advocate the filling in of the Twelfth street marsh below the dam and make a park out of that strip of land. He has this in contemplation, at least.

"There has been a great deal of talk about improving our beautiful lake," said Mayor Mott this morning, "but in many years there has been little done. I am going to call a committee of citizens together soon to consider the needs of the city and see if the marsh south of the dam cannot be obliterated. I had estimates on the work and the figures are higher than I anticipated. I thought that the work could be done for about \$40,000, but I find that it will cost more like \$100,000."

"While advocating this improvement, I do not mean to convey the impression that I will neglect any other of the needed improvements."

NON-UNION MEN RUN CARS

SENT OUT BY STREET RAILWAY COMPANY OF SAGINAW, MICHIGAN.

SAGINAW, Mich., June 5.—Manned by non-union crews, the street railway company today sent out a number of cars with officers on board. There was no resumption of yesterday's attacks on the non-union men and the throwing of eggs and other missiles at the cars. Both the company and the men declare that the fight will be to a finish.

President Mahon of the Amalgamated Association of Street Railway Employees will be here tonight to take personal charge of the strike.

SUSPICIOUS.

(From the New Orleans States.)

"Russell Sage has a suspicious mind," said a New York broker. "He can see through nearly everything. I doubt if he was ever duped on an investment yet."

"They say that two promoters once called on Mr. Sage to try to interest him in a certain scheme of theirs. They talked to the great financier about an hour. Then they took their leave, having been told that Mr. Sage's decision would be mailed to them in a few days."

"I believe we've got him," said the first promoter, hopefully, on the way uptown.

"I don't know," rejoined the other. "He seems suspicious."

"Suspicious?" said the first. "What makes you think he was suspicious?"

"Didn't you notice," was the reply, "how he counted his fingers after I had shaken hands with him?"

FLOOD NOTES FROM ARIZONA.

(From the St. John's (Ariz.) Herald.)

The editor lost his fine Brussels carpet in the flood and doesn't feel at home since. This carpet was made by Mr. Brussels himself, from binder twine, and was a fine airy covering for a summer room.

Our devil is in a bad fix. The mud got into his shoes during the flood last week and dried, and he can't get his feet out now.

Someone took the grub which the patrolman had at the reservoir. Humanity will sometimes help the elements make it disagreeable for the rest of humanity, and misfortunes never come singly, etc.

JUDGING BY APPEARANCES.

A student once asked the French alchemist if there were any sure tests by which to tell the same from the insano. "Please dine with me tomorrow at 6 o'clock," was the answer of the alchemist. The student accepted the invitation and found two other guests present, one of whom was elegantly dressed and apparently highly educated, while the other was rather uncouth, noisy, and extremely conceited.

After dinner the pupil rose to take leave. As he shook hands with his teacher the latter remarked: "One of the two gentlemen you have met is insane, can you tell me which?" "The problem is very simple," was the student's reply. "The quiet, well-dressed gentleman is certainly distinguished in some lines but the other is as certainly a lunatic and ought at once to be looked up."

"You are wrong, my dear friend," replied the alchemist. "That quiet, well-dressed man who talks so rationally has for years labored under the delusion that he is God, the Father, whereas the other man, whose exuberance and self-conceit have surprised you, is Honore de Balzac."

ROYAL WEDDING PLANS

Crown Prince of Germany Will Claim His Bride Tomorrow.

BERLIN, June 5.—Everything is in readiness for the wedding of the Crown Prince and Duchess Cecilia here tomorrow. All Germany is interested in the happy event. Great preparations have been made for the wedding and all the powers will be represented at the nuptials.

The Duchess has already won her way into the hearts of the German people by her clever manners and her quiet demeanor.

Emperor William is particularly pleased with her and shows his happiness over the coming marriage at every opportunity.

GIVEN A SERENADE.
Last night 5,000 students of the Berlin University packed the plaza before the Imperial Palace, swinging torches over their heads and shouting for the Duchess, the Crown Prince and the Kaiser.

In response to the cheering the Duchess Cecilia and the Crown Prince, with clasped hands, appeared and bowed and smiled to the hurraing students. The Kaiser hovered behind the couple and peered over their shoulders at the crowd beneath, smiling broadly.

The Duchess Cecilia looked tired after two days of ceremonies at the most punctilious court in Europe. While today was not filled with ceremonies as yesterday was, nevertheless there was sufficient to fatigue many stronger than the rather frail Duchess. The Imperial family had all the Imperial guests from all the courts of Europe, drove in state to the cathedral, which is the Kaiser's pet church.

After a formal breakfast, which all members of the Imperial family attended, his majesty, Duchess Cecilia, the Crown Prince and a swarm of Princes and Princesses of the court, the Emperor, with a glittering group of their majesty's guests from all the courts of Europe, drove in state to the cathedral, which is the Kaiser's pet church. His majesty having watched each detail of the ceremony, even the attendance of the splendid Imperial party failed to relieve the Cathedral of its ugliness. Interiorly it is one of the least impressive churches in Europe, its huge frescoes being inharmonious with the Gothic architecture. The Imperial family occupied a gallery on the western side of the Cathedral facing the altar. Dr. Dysander, the Kaiser's favorite ecclesiastic, preached.

KAISER SEES HATS.
The Kaiser, throughout the superb choral service, was busy scanning the hats of the notables filling the choir on the floor of the cathedral. While the men wore undress uniforms, nevertheless they vied in color with the gowns of the women. The latter generally wore morning dress, rose pink, Cecilia's favorite color, predominating. All the women wore new hats, and if the Kaiser had eyes for millinery he would have detected the fact that nine out of ten hats were made in Paris.

There was great pressure for admittance to the cathedral, which is rather small. Because of the lack of room hundreds of the smaller notabilities of the Imperial court and of other countries in Europe were unable to obtain admittance. After the service a luncheon was served in the palace.

DINED IN STATE.
Last night the Imperial families and their majesties' guests and the representatives of the army, navy, embassies and the distinguished literary men and artists dined in state in the Rittersaal. It was a splendid spectacle, with the men in full uniform and the women wearing court dress.

Duchess Cecilia made a remarkable personal impression on the guests. She was animated, cordial and unaffected. Emperor William took Grand Duchess Anastasia to table and by his attention to her quite disproved the stories of discord between them.

TOASTS.
At the conclusion of the dinner Duchess Cecilia called for the two glasses of champagne and handed them to the two pages who bore her train. There were no toasts. The dinner ended with a torchlight procession of students with flags and music came down Unter den Linden. The royal party went out on a balcony, where the Duchess and Crown Prince stood in a brilliant light so that the marchers could see them.

Berlin is packed and hundreds of Americans have been compelled to find lodgings at hotels in near-by cities, coming to town by train daily to see the sights. The Berliners are amused by the heavy police guard stationed at the Russian Embassy.

There is gossip in court circles to the effect that there may be another wedding in the Imperial family ere long, because everybody believes that Prince Bismarck is desperately in love with Princess Patricia of Connaught and is determined to marry her if reasons of state do not forbid.

CHINA ARRIVES FROM ORIENT.
SAN FRANCISCO, June 5.—The mail steamer China, carrying a large cargo from the Orient, and bringing passengers from China and Japan, arrived today. The cargo is valued at \$25,000.

FRUIT COMPANY.
SAN JOSE, June 5.—The California Fruit Products Company has been incorporated here to pack and can fruit. The capital is \$25,000.

JAPAN GIVEN ANSWER

Told That Russian Warships Will be Interned.

WASHINGTON, June 5.—The Japanese minister here has formally inquired of the Department of State what action the United States Government intends to take respecting the Russian war vessels now in Manila bay.

Acting Secretary Loomis this afternoon responded that these vessels would be interned provided they did not leave the harbor at once.

This exchange has taken place in order to formally establish the responsibility of the United States for the detention of the vessels in Manila harbor until the end of the hostilities.

BURLINGTON NOT TO BUILD

GIVES UP IDEA OF REACHING THE SHOSHONE RESERVATION AT PRESENT.

CHEYENNE, Wyo., June 5.—The correspondent of the Associated Press learned today from what is considered absolutely reliable source that the Burlington railroad, which has been conducting extensive surveys in the Big Horn basin, with the view of reaching the Shoshone reservation, has indefinitely postponed its plans to build.

The large corps of Burlington surveyors now in the field has been recalled and the proposed visit of the Burlington officials has been abandoned.

This eliminates all prospect of the great railroad construction war in which the Northwestern and Burlington planned to engage in their race for the Shoshone reservation to be opened up next year. Agreement between railroads and a lack of development are reported to be the reasons for the abandonment of the railroad.

NOME IS OPEN TO SHIPS

SEATTLE, Wash., June 5.—The roadstead at Nome is now clear of ice, according to a message received today by the Northwestern Steamship Company.

The Corwin, which left this port May 15, reached Nome safely June 2.

FEAR RATS MAY BRING DISEASE

SAN FRANCISCO, June 5.—The freight steamer Queen Alexandra, which arrived today from the Orient, was sent into quarantine. It was held that the steamer might be infested with rats which would bring disease germs from the Orient.

U. S. GUNBOAT ANCHORS IN BAY

SAN FRANCISCO, June 5.—The United States gunboat Princeton left the Mare Island navy yard this morning and is now anchored in San Francisco bay preparing to sail for Panama. The Princeton, which is in charge of Captain H. E. Sherman, goes to the Isthmus station to relieve the Monitor, Wyoming, which will then come North.

COMMENCE DAMAGE SUIT.

The trial of the suit brought by Hirst Parkin against Grayson, Owen & Co. to recover \$10,350 for alleged injuries sustained by reason of his having been run into by a runaway team was begun this morning before Judge Ellsworth, and the morning was spent in efforts to secure a jury to listen to the evidence in the case.

Furkin states that he was driving along on Telegraph avenue and was run into by a runaway team by a team of horses that had been left unattended by Grayson, Owen & Co. He says that he was thrown out and severely injured.

FIGHTING FOR HIS L BERTY

Frank Maestretti Appears Before Jury on Felony Charge.

SAN FRANCISCO, June 5.—The selection of jurors in the case of Frank Maestretti, president of the Board of Public Works, indicted by the Grand Jury for election frauds, was commenced today before Judge Lawrence. But two talesmen of the original panel were chosen.

A LINE ON THE DEFENSE.
William C. Zimmerman was the first talesman called, and his examination developed what will apparently be one of the points of reliance to be set up by the defense. Among the questions asked by Byington was the following: "Do you belong to any Republican Club?"

Ex-Governor Budd asked Zimmerman if he belonged to the Citizens' Alliance, and, receiving an affirmative reply, demanded to know if the Citizens' Alliance was not a political organization formed for the purpose of defeating the present administration. Zimmerman declared that none of the alliance officials had ever mentioned politics to him, the only idea he had ever entertained in connection with the organization was relating to the "open shop."

TO INVESTIGATE ALLIANCE.
Taking this answer as a basis for his demand, Budd arose and in a somewhat flamboyant manner asked for a subpoena for the secretary of the Citizens' Alliance, together with all letters, books and papers of the alliance relating to its participation in political affairs. Budd said he would exploit considerable evidence along this line before completing his examination of Mr. Zimmerman, and his questions as well as his manner indicated that he would attempt to make a showing during the trial that Maestretti was a victim of the strong anti-Schultz sentiment now pervading the community. He interspersed his questions during the morning with such remarks as the following: "The Schultz administration is not on trial, save in the newspapers. He is also anxious to know what newspapers the respective talesmen read, whether they belonged to the new San Francisco Republican League, whether they knew Grand Juror E. J. Bowes, and whether they belonged to the Merchants' Association."

District Attorney Byington investigated the acquaintances of the talesmen, inquiring especially as to whether they knew Maestretti, Abe Rusf or the members of the Board of Public Works.

RUSSIANS SEEN AT SEA

HONG KONG, June 5.—The steamer Zaphiro, which has arrived here from Manila, reports having sighted a Russian volunteer fleet steamer, two supposed torpedo boats and a three funneled cruiser accompanied by a deeply laden transport this morning in latitude 20.59 north and longitude 115.23 east. The vessels were steering southwest.

PLACED ON TRIAL FOR MURDER

BAKERSFIELD, June 5.—Newt Walker, is now on trial for his life for the double killing of Dave Burton and George Baggett at Haystack in April. Wide interest in the hearing filled the courtroom and among those in attendance are the aged father of the defendant and the mother and two sisters of Dave Burton. All three women were clad in the deepest mourning. G. L. Sanders, of Los Angeles, is assisting the prosecuting attorney.

ROJESTVENSKY IS BETTER

TOKIO, June 5, 2:30 p. m.—The chief surgeon of the Sasebo Naval Hospital reports that Admiral Rojestvensky's condition is favorable. His pulse and temperature continue normal. There is no sign of brain complication.

On the inside of the right thigh there is a bruise as large as the palm of the hand and also a pierced wound in the left foot. There are no signs of pus.

LAUNDRYMEN GO ON A STRIKE

SAN JOSE, June 5.—The laundrymen in this city went on strike this morning, the proprietors having refused to renew the contract entered into two years ago. Later the largest laundry signed the contract, and it is believed that the matter will be settled before evening with the other laundries.

RESIGNS FROM THE EQUITABLE

NEW YORK, June 5.—Jacob H. Schiff, head of the firm of Kuhn, Loeb & Company, bankers, today tendered his resignation as a director of the Equitable Life Assurance Society.

WILL SEE OUR GREAT HARBOR

Senators and Congressmen to Make Trip Around the Bay.

SAN FRANCISCO, June 5.—The presence of a large party of Senators and Congressmen, including Senator Clark of Wyoming and Congressman Littauer of New York, is particularly interesting to the artillery and engineers stationed here, as Congressmen Littauer is on the fortifications committee in the House. These legislators, who are staying at the St. Francis, will go around the bay on a revenue cutter boat tomorrow and visit the different artillery posts of the harbor. This looks as if some important improvement in the fortifications of the bay were contemplated. Although the building up of the President, Port Baker, Port Barry and Port Miley has been prodigious in the last few years, artillerymen, with the interests of their branch of the service at heart, are always eager for a greater strengthening of the defenses, and the placing of additional guns and the increase of the number of companies to man them.

NO MANEUVERS ON THIS COAST.
Several years past it has been hoped that the combined army and navy maneuvers which have been held on the Atlantic Coast so often would be held here, playing on the capabilities for attack and defense of the navy and the coast artillery. But the maneuvers are being held in California, and the Pacific Coast. Even if Congress has wished to appropriate the money for maneuvers here there is not enough of the navy stationed in these waters to make the thing a success. Very few vessels are here now, most of the Pacific fleet being in the Orient.

There will be no army maneuvers this year similar to those held on such a large scale last year at San Francisco. The Albatross, in Southern California, the combined maneuvers in the East are not military in any extent, as the only portion of the army involved is the Coast Artillery.

HONG KONG, June 5.—The steamer Zaphiro, which has arrived here from Manila, reports having sighted a Russian volunteer fleet steamer, two supposed torpedo boats and a three funneled cruiser accompanied by a deeply laden transport this morning in latitude 20.59 north and longitude 115.23 east. The vessels were steering southwest.

HUBBY SQUEEZED ANOTHER'S HAND

SAN FRANCISCO, June 5.—Caroline Grieb, wife of Peter Grieb, an engineer in the San Francisco Laundry, filed her complaint for divorce today. Mrs. Grieb was married in 1889, but her husband lasted two weeks, she says. At that time, she states, she removed her husband from the house and he proceeded to live in a hovel. He came home at 2 o'clock in the morning, took his clothes out of the closet and threw them about the place, said if he had had a pistol he would kill her.

From that time, says the wife, he has been sullen and morose and made several disturbances at their home, 1513 33rd street.

IN A MANGROVE FOREST.
An explorer in northern Australia thus describes his vain efforts to make friends with some wild natives who ran away from him: "We had hardly begun to move from cover when we saw several dusky figures running across the marsh into the mangroves. We started the camp we found it when we reached the mangroves. The fire was still burning and the natives were taking to the water. They left their camp with the black fellows with them, and they were taking to the water. We followed the retreating savages into the mangroves."

When he was seven years old he was as big as an ordinary man. At twelve years of age he was six feet six inches, and at fourteen he was eight feet one inch. When at Warsaw Machnow was drafted as a recruit of the Imperial Guard, but he quietly slipped over the frontier to avoid serving.

His journeys are not a source of pleasure to him, for both in the train and on the boat he has to spend most of his time in a recumbent position. He was met at London by a van comfortably upholstered and fitted with a huge couch for the giant to recline on and drawn by four horses.

In the game of life diamonds are trumps; only when a man has a good deal.

Some people's idea of a desirable neighbor is one who owns a lawn mower.

Alimony is a salve used by some to heal the wound made by Cupid's dart.

NO CHANGE IN THE STRIKE

Restaurant Men Appear to Be Holding Their Own.

The strike of the Cooks' and Waiters' Union is still in progress, and but very little change is to be noticed between the conditions at the present time and those of Saturday evening, save with respect to the fact that nearly all the restaurants in town whose men went out last Saturday morning report that they have a full complement of cooks and waiters and that business, inside of a day or two at the farthest, will be running as regularly as before the strike was declared.

The exceptions to this general statement are the Liberty bakery, the restaurant part of which is closed for repairs, only coffee, cake and rolls being served, and the Palace saloon, which, the proprietor says, is gradually getting the force he requires. He also asserts that he would have had a force equal to that which went out Saturday had it not been for the intervening of Saturday and Sunday, on both of which days waiters and cooks find chances for special work in this vicinity.

At the Citizens' Alliance headquarters it was announced that all the demands for help from local restaurants had been nearly supplied, only a few waiters being now sought for.

The restaurants which are fully supplied are the Maltose de Vigne, the Salsadero, John Slavich's on Thirteenth street, the Gas Kitchen, the California, the cottage, the Victor, the Coney Island and Fisher's.

A question has arisen as to whether or not the Bakers' Union will go out in sympathy with the strikers for the purpose of preventing the bakeries with which they are connected from supplying bread to the restaurants which are employing crews who failed to go out when ordered by the Cooks' and Waiters' Union or those who have taken the places of the striking members of the organization.

The question has been brought before the Bakers' Union. The only conclusion arrived at is that it is, as yet, too early to take action in the premises.

The Cooks' and Waiters' Union has the endorsement of the Central Labor Council in this move, but, thus far, no action has been taken by that organization to further the success of the strikers.

The Piedmont restaurant, at the corner of Eighth and Washington streets, which is run by members of the Cooks' and Waiters' Union is doing a rushing business, which, it is said, has been occasioned by sympathy for the strikers.

The Cooks' and Waiters' Union have, as yet, issued no statement regarding their views on the situation. The organization will assume the responsibility of saying anything on the subject until after the organization shall have spoken.

WASHINGTON, June 5.—Governor Magoon of the Isthmian Canal zone has cabled additional information regarding yellow fever conditions on the isthmus.

No deaths are reported, although three Americans, one Spaniard and one Peruvian were stricken with the fever during the five days from May 26 to 30.

The Americans are Ralph Hill, J. Wickware and W. A. Sowden. Two of the cases occurred at Colon and three at Panama.

THE WORLD'S TALLEST MAN.
(From the St. Paul Pioneer Press.)
Ivan Machnow is the tallest man that has ever lived, for he stands nine feet two and one-half inches in his socks and weighs 280 pounds, although he is only twenty-three years of age. This extraordinary man was born in Charkoff, Russia.

When he was seven years old he was as big as an ordinary man. At twelve years of age he was six feet six inches, and at fourteen he was eight feet one inch. When at Warsaw Machnow was drafted as a recruit of the Imperial Guard, but he quietly slipped over the frontier to avoid serving.

His journeys are not a source of pleasure to him, for both in the train and on the boat he has to spend most of his time in a recumbent position. He was met at London by a van comfortably upholstered and fitted with a huge couch for the giant to recline on and drawn by four horses.

In the game of life diamonds are trumps; only when a man has a good deal.

TWO MEN AND A WOMAN BEATEN BY TOUGHS.

Automobile Party in San Francisco is Attacked By Gang of Intoxicated Men.

SAN FRANCISCO, June 5.—Mrs. Madge O'Connell, young and beautiful, was so brutally beaten by a hoodlum at the corner of Third street and South Park early this morning that she may not recover from her injuries. Percy O'Connell, her husband, and Rex Cutter, another companion, were knocked to the ground senseless. Miss Carrie Becker, the fourth member of an automobile party, escaped only by running into her home near by.

O'Connell and his wife, Cutter and Miss Becker, who had returned from an auto ride about the city, were assaulted by a gang of ruffians. They had stopped about 1 o'clock this morning in front of the house at 529 Third street where Miss Becker and Cutter reside. All had alighted from the automobile and were standing in the street beside the machine when a number of drunken men staggering along the sidewalk began to make insulting remarks.

O'Connell and Cutter, seeing themselves far outnumbered, refrained from replying to the insults; but the hoodlums were looking for trouble and, when their challenges brought no response, deliberately turned and attacked the automobilists.

KNOCK THE MEN DOWN.
Mrs. O'Connell and Miss Becker dodged behind the automobile to escape the gang. O'Connell, Cutter and Walter Bloom, the chauffeur, put up the best fight they could, but they were soon overpowered. Their assailants surrounded them, two or three men attacking each. O'Connell's face was cut and torn, and finally he sank unconscious to the street. A moment later Cutter, knocked out by blows about the head, fell and struck his head against the curb. Bloom in some way got out of the scrimmage with only a few scratches.

By that time Miss Becker had made her escape, but Mrs. O'Connell would not desert her husband. Standing over his prostrate body, she called for help. Her cries frightened away the ruffians, one of whom, however, rushed up and struck her down before he fled. The young woman fell unconscious from a terrific blow on her forehead.

TAKE WOMAN TO HOSPITAL.
Policeman Bruce and Wash, who had heard the call for help, arrived on the scene a few minutes later. By that time, however, the brutal assailants had disappeared. O'Connell had recovered consciousness, but Mrs. O'Connell and Cutter still lay like dead persons. O'Connell gave his address, 258 Stevenson street, and his wife was carried there, but when the woman showed no sign of regaining her senses she was removed to the Central Emergency Hospital for treatment. Cutter was carried to his room in the house at 529 Third street, where he awoke an hour later.

At first it was thought that Mrs. O'Connell's skull had been fractured, but later it was learned that she had only been stunned. That injury is regarded very dangerous, however, the woman suffering intensely from concussion of the brain.

O'Connell could not explain the attack when seen this morning.

AN UNPROVOKED ATTACK.
"It was entirely unprovoked," he said.

BORN.
NAYLOR—In this city, to the wife of Horace Naylor (nee Lillian A. Blight), a son.

DIED.
MORRISON—In Oakland, June 4, Ellen Morrison, beloved wife of Max Roebke, mother of Loretta and Max Roebke and daughter of J. P. W. Holmes, a native of Ireland, aged 60 years and 4 months. Late of New Orleans.

Friends and acquaintances are respectfully invited to attend the funeral Tuesday, June 6, at 2 o'clock, from the residence of James Holmes, 546 Magnolia street, thence to St. Patrick's Church, West Oakland, where a solemn requiem mass will be celebrated for the repose of her soul, commencing at 8:30 o'clock sharp. Interment St. Mary's Cemetery.

ROBEK—In this city, June 4, 1905, Mary, beloved wife of Max Roebke, mother of Loretta and Max Roebke and daughter of J. P. W. Holmes, a native of Ireland, aged 60 years and 4 months. Late of New Orleans.

Friends and acquaintances are respectfully invited to attend the funeral Tuesday, June 6, at 2 o'clock, from the residence of James Holmes, 546 Magnolia street, thence to St. Patrick's Church, West Oakland, where a solemn requiem mass will be celebrated for the repose of her soul, commencing at 8:30 o'clock sharp. Interment St. Mary's Cemetery.

COHEN—In this city, June 5, 1905, Abraham, infant son of H. and Nellie Cohen, a native of California, aged 6 weeks.

Alimony is a salve used by some to heal the wound made by Cupid's dart.

OAKLAND TRIBUNE

W. E. DARGIE, President

Business Office and Publishing House, 413-417 Eighth Street, Oakland.

Russia's Black Sea Fleet.

Count Cassini's suggestion that Russia may attempt to put another navy afloat against the Japanese leads one to inquire what she has left in the way of ships since the destruction of Rojstvensky's fleet. She still has ten admirals, twenty-eight vice-admirals and thirty-seven rear admirals on the pay roll, but even this imposing array of commanders is not likely to make up for the lack of fighting ships.

The Black Sea fleet composes Russia's chief naval strength at present, but this squadron labors under the disadvantages of being undermanned, in bad condition and unable to get through the Bosphorus. Large drafts were made from it to man the Baltic fleet, and little effort has been made to keep the ships fit for active sea service. In the Black Sea fleet are eight battleships, but four of these are of an obsolete type. Two others are second rate, and still another, while an excellent ship, is small—only 8,800 tons. This leaves as of first rank only the K. P. Lavritshesky, a ship of the class of our Maine. Two sister ships of the Lavritshesky are under construction, and also three small cruisers. This is not a formidable fleet at best, and in its present condition it would have not the ghost of a chance against Togo even if the signatories to the Berlin Treaty were to consent to its passage through the Dardanelles.

In the Baltic Russia possesses one 9000-ton battleship, the Alexander II., built in 1885, and one 13,400-ton battleship, the Slava, of the Borodino class. This latter vessel was launched in 1903, and should soon be ready for use. Then there are two other battleships, the Imperator Pavel and the Andrei Pervosvanni, of 16,630 tons, larger than any that have fought on either side in the war, but these were only laid down last year. Probably they will not be ready till 1907 at the earliest.

So it is clear Russia cannot put another really formidable fleet on the sea under two or three years. Meantime Japan is building battleships, heavy armored cruisers and torpedo boats. The ships captured at Port Arthur are being repaired and her fighting force has been augmented by the two battleships captured in the recent battle. Two large battleships are under construction in the Japanese yards. If nothing disastrous occurs meanwhile, Japan will have a fleet of fourteen battleships in commission a year from now. What could Russia bring against such a powerful flotilla? Nothing that the Japanese would not send to the bottom in short order. The talk of Russia equipping another navy for service during this war is mere rhodomontade.

Judge Sloss believes the courts should respect the spirit as well as the letter of civil service laws. His example is in refreshing contrast to the eminent jurists who ingeniously ignore the obvious in their decisions. His action is likely to discourage the fine art of beating the law to death with technicalities.

Decorating the graves of deceased veterans should be a reminder that there are still living a number of old veterans who are not too well cared for in their declining days. In honoring the dead we should not forget the living.

Russia still has a large stock of unused admirals, vice-admirals and rear-admirals on hand, but they have no ships to command. But the job of admiral in the Russian navy is safer for all that.

President Jordan says he was misrepresented by the Boston dispatch which quoted him as saying Professor Goebel was dismissed from Stanford for incompetency. He says the professor of languages was dismissed for unprofessional acts not of a criminal character. This is as we suspected and acquits President Jordan of tergiversation, but it is not entirely satisfactory as an explanation of President Jordan's attempt to make granting Dr. Goebel's application for a sabbatical vacation conditional on his presenting his resignation in advance. The question naturally arises, why did not President Jordan demand Dr. Goebel's resignation before? Why did he wait till the application for a sabbatical vacation was made? The failure to act before has given ground for the complaint that Dr. Goebel was treated unfairly.

The Nevada City Miner-Transcript thinks the San Francisco papers give too much space to changes in the faculty of Stanford University. Too much space may be given to changes, but too much importance can hardly be attached to certain changes. When the question of academic freedom is involved in dismissals from Stanford or any other university, an issue vital to the general public is raised. Happily the latest dismissal from Stanford does not involve academic freedom, though it does trench upon academic usage and savors too much of sharp practice to be entirely agreeable. In an institution devoted as much to character-building as to imparting mere technical instruction, strict heed should be paid to every principle of fair dealing and the greatest latitude given to freedom of conscience.

The teamsters' strike is still harassing business in Chicago, but it is apparent, even at this distance, that the strikers are losing ground. Each day the embarrassment caused by the strike grows less, and the cases of violence grow fewer—perhaps because the police force has been augmented to such an extent as to afford adequate protection to the non-union drivers. Nevertheless President Shea continues to assert that the strikers are bound to win. Having led them into a disastrous fight, he is prolonging it when he would do his followers a better turn by making terms with the employers.

The Summer Vacation

At this season of the year the mountains and the sands by the sea call to the dwellers in cities to drop the cares of business, leave the crowded marts of trade and come to hold communion with nature in her varied and unspoiled aspects. In each human breast there is a responsive longing to this call. Few there are who do not feel the desire to roam the woods and hear the brooks babble under the singing trees, or wander by the seashore and listen to the sounding waves as they roll upon the sands.

It is well. This is the playtime of the year, when people feel like idling and taking a rest, leading the simple life "far from the madding crowd." It is good to go on a summer outing, and few there are who cannot afford some sort of one. One returns refreshed and reinvigorated, to take up the tasks of daily life with renewed energy. And life is all the sweeter for a sojourn where nature still holds sway. In the high mountains the air refreshes like wine, but everywhere the woods and fields—the wild flowers, grass and birds—offer charms which reanimate the jaded spirit and give a healthier color to cheek and thought. And the salt air of the sea is a tonic which revives and heartens after a season of toil.

But the most wholesome thing about the outing is that it is devoid of selfishness. It has not money-making for its object, it is not business, but a running away from business. It is a time when men meet each other on a common ground of good fellowship without measuring each other by the profit that may be made by association. Spirits flow free, and men and women reveal their true characters away from the artificialities of the town, showing how harking back to nature causes the masks and mummeries of society to drop away when the domain in which it holds sway is passed.

California affords an infinite variety of attractive vacation retreats. The number of mountain and seaside resorts is great, and

the prices are of such a wide range as to be within the most moderate means or to comply with the wants of the most extravagant. No other State can boast of such a number and variety of medicinal springs, nor mountain scenery of such grandeur. Nowhere else can be found such delightful spots for camping. Yosemite, Tahoe, the Big Trees, the Geysers, the mountain lakes and curative waters of Lake County are peculiarly Californian. No one should fail to visit some one of them this season. If information be desired search the resort advertisements of THE TRIBUNE. All the principal summer resorts are mentioned there, and the man who cannot make a choice from the list presented must be hard to please.

Togo's praises of the heroic fight put up by his fleet moved Rojstvensky to tears. No wonder.

CHIPS FROM OTHER BLOCKS.

Three thousand people marched through a Spanish city the other day demanding bread or work. Over here the people who demand bread are careful, as a rule, not to mention work.—Chicago Record-Herald.

The group of judges of the Supreme Court of Kansas were talking the other day of a lawyer of that State. One of the judges thought the lawyer an able advocate. "That fellow," said another judge, "is the most intellectual man physically I ever saw."—From an Exchange.

If the Japs collect all the money they have made out bills for, the war will have proved an excellent financial flyer for them.—Los Angeles Times.

If the English observers would consider the case of Secretary Taft they would find still another proof that Secretary Hay is not only heavy-weight statesman.—Chicago News.

It seems hardly necessary that all this discussion should have taken place for the mere purpose of proving that a life insurance company belongs to its policy holders.—Syracuse Post-Standard.

It is not believed that the fact that the price of champagne has doubled at Harbin will make any difference to the Russian private soldier, who gets 11 cents a month.—New Haven Courier.

Vice-President Fairbanks says life on the farm is a good thing to warm the blood. We are assured, however, that the Vice-President does not set himself up as a warm blood expert.—Chicago Record-Herald.

GROUNDS OF THE TERRIBLE

By Harold Beghli.

The death is announced of First-Class Petty Officer Grounds, of His Majesty's ship Terrible, the best shot with a heavy gun in the British navy. Grounds' wages were 3 shillings a day, and for the unparalleled achievement of making eight shots in one minute in 1901 with the six-inch gun and seven hits out of eight rounds in one minute under most unfavorable weather conditions in 1902, he received in all the magnificent remuneration of 1 shilling 9 pence and 6 shillings 3 pence in the two years, "his proper share of prize money."

The statesman at the council, and the gunner at the breach;
The hand upon the parchment and the eye along the sight
O the cry is on the waters: Have you weighed the worth of each?
Have ye shown a mandate stronger than ability to smite?

He was the best with a heavy gun in the whole o' the British fleet.
And the run of his pay? Three shillin's a day, with biscuit and salted meat.

He was the man who could pitch his shell on a mark that was never still

Eight times true while a minute flew, and Parliament whittled the bill.

He was a man who could soothe a gun in the race of a swirling tide,
Who could chime his shots with the charging knots of a ship with a dripping-side,

Who could get to his mark from a dancing deck that never a moment stood,

Content to hear, for a Bisley cheer, a midshipman's muttered "Good!"

Never his eye will steady now thro' the spray and the whistling rain,
To loose the scream from the foaming lips and splinter the mark in twain;

Never again will he win his share in the prize that my Lords assign—
Six-and-three in a single year, and once it was one-and-nine!

Never again! He has fired the last of the shells that the state allowed—
He has turned from the roar of the 6-inch bore to the hush of the hammock shroud,

And never a bell in England tolled, and who was it caught his breath
When the Shot o' the Fleet first dipped his feet in the flooding ford of Death?

Gladder, I think, would the gunner's soul have passed thro' the closing dark

Had he known that ye cared with patriot joy when the navy hit the mark;

Gladder, I think, would the gunner's soul have passed to the farther shore

Had the Mother Land once gripped his hand and uttered the pride she bore.

Gold is the prize that all men seek, tho' the mark be honor and fame.

Declare: Have ye spurned by a gift or a word the Terrible gunners' aim?

Will ye care to know what the men can do when the hosts of hate embark?

What of your sons at the old sea guns; have ye cared if they hit the mark?

SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other rapidly over her body. The disease next attacked deformities, with a wasting of the system, and she would lose her sight of the natural strength and vitality, are some of the ways in which this terrible disease manifests itself. The poison had a sign of the disease to return, transmitted through the 150 S. 5th St., Salina, Kan. Mrs. E. BARKLEY, blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tubercular poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.

WOMAN'S HANDIWORK AT PORTLAND FAIR.

What They Have Prepared and Placed on Exhibition For Benefit of Visiting Eastern Sisters.

WONDERFUL PILLOW FOR MISS ALICE ROOSEVELT.

Feminine hearts will be filled with delight when they view the superb exhibit of woman's handiwork at the Lewis and Clark Fair this department promising to be one of unusual interest and one of much beauty. It is said that Western women know how to be artistic in the truest sense of the word, and visitors from North and East will have a splendid opportunity to see the best of their handiwork.

Mrs. W. S. Ott has been chosen as superintendent of the Woman's Department, and the choice is an admirable one for it would be difficult to find any woman as enthusiastic and clever as Mrs. Ott. She is a young woman of attractive appearance, with a winsome personality and will show Eastern visitors that the Western people are as cheery, bright and every bit as "whole-souled" as they are pictured in the tales of today. The Woman's Department promises to be a revelation, and while plans were only started early in May the division is now fully organized and the department is a veritable beehive. Mrs. Ott has rare taste and the arrangement will be perfect.

The woman's court is situated in the beautiful Oriental building the places for the exhibit being courts 15x32 feet, 20x15 feet and 8x10 feet. The walls will be almost concealed by the large glass cases eight feet high the glass cases in the center of the hall being used for the smaller pieces.

The gallery will resemble an Oriental shop of rich wares for there will be flimsy laces like a cobweb, elegant embroideries, knitting, crochet work, china painting, pen-and-ink sketches, etc. Everything accepted will be well protected and will be kept under lock and key. The articles displayed may be sold, to be delivered at the close of the exposition.

There will be much good-natured rivalry, for gold, silver and bronze medals are to be awarded, and a diploma for honorable mention will be given, there being competition in each of the various classes.

Indian baskets will be displayed in all shapes, sizes and colors, the exhibit from different portions of the Northwest being one that will cause the eyes of Easterners to open wide with surprise and admiration. One club of prominent women interested in basketry has taken much interest in the plans for this feature of the exhibit, and will loan some of its most gorgeous and valuable baskets on exhibition.

Mrs. Ott, in giving an outline of her plans, said:

"We wish the people of Oregon and the Coast States to take a personal interest in trying to make the display an especially fine and attractive one so that the Woman's Department of the Lewis and Clark Fair may be a

credit to this section of the country and prove that the West can make quite as creditable a display of fine work as can the East.

Nothing but the finest will be accepted except of course that of historical value. Exhibits will be kept in glass cases and the best care possible will be taken of the same but no responsibility will be assumed by the Exposition for any loss by fire or any other casualty.

The exhibits will be installed and packed for return by us but all expense of sending and returning the displays must be borne by the exhibitors.

One of the most exquisite exhibits will be the work of Miss Kristine Oberg, now world-famous. Miss Oberg whose art is truly remarkable has the honor of being the only American woman to receive the medal at Paris for fine needlework. She secured medals also at Chicago at the Columbian Exposition and the Pan-American Exposition in 1901.

Miss Oberg has in her possession a letter from Mrs. Potter Palmer, who congratulated her upon her splendid work and who said also that Miss Oberg was the only one to whom she had written a personal letter.

Miss Oberg is planning to make a wonderful pillow which if it meets with the approval of the committee, will be given to Miss Alice Roosevelt, daughter of the President when she visits the Fair. This, however, is simply a suggestion, official action being taken later.

One of Miss Oberg's most exquisite pieces is 27 inches in diameter, the design being taken from a fan that belonged to Queen Victoria. The latter part of July the exhibit will be enriched by a design taken from one of the famous museums in Europe.

Miss Oberg will also exhibit a superb centerpiece and 12 dairy doilies, done in white, the centerpiece being adorned with likenesses of Washington, Lafayette, McKinley, Fitzhugh Lee, General Miles, Dewey, etc. Artists that have seen the portrait of

Lee declare that the likeness is marvelous. The small doilies are embellished with faces of Washington, Lafayette, Lincoln and McKinley.

Miss K. Shean of Jacksonville, Ill. who received a medal at the Chicago World's Fair and won the approval of Mrs. Potter Palmer, will exhibit some of her most attractive work.

Handsome lace curtains of Battleground valued at \$250, will be displayed by Mrs. J. W. H. Fear and Mrs. J. Y. Aitchison will exhibit elegant hand-made lace of great value. Among the spreads will be a bedspread over 150 years old of unique design and color.

Miss Ella Barrett of Solomon Kan. will display a table cover costing \$500 which has as a center the seal of Kansas two yards all wrought in the Mount Melick. It has a wide border with wheat and corn in opposite corners and eight sunflowers.

Mrs. J. Woods Smith will display a point lace fun made of 1500 and 2000 thread the work requiring one year for completion. Fine point lace handkerchiefs will also be featured.

W. Mellien will exhibit some rare old embroidery 140 years old which was fortunately saved from a prairie fire. Four generations are represented, one napkin embroidered being over 145 years old made by a girl of 13. Three cards on parchment are novel exhibits.

The exhibit will include many quaint and old-fashioned accessories so popular in these days and those fond of 'best bib and tucker' will find many things to admire, such as diaphanous cuffs and stocks, etc. It is probable that elaborately embroidered monograms on table and bed linens will figure prominently in the designs of special interest.

All the furbelows and fixings with which the summer girl adorns herself will be in evidence and it is expected that fancy pillows of all kinds will form an important part of the display. Mrs. Ott may be found in the Administration building Telephone Exchange 42 house 6. The room is No. 34.

MINISTER SAYS:

A large number of the divorces at the present time are welcome.

NEW YORK, June 5.—In a sermon at the Church of the Messiah Rev. Minot G. Savage has expressed the belief that on the whole a large number of divorces at the present time are altogether to be welcome.

"They are," he said, "nearly always in the interest of oppressed women giving them another opportunity for a free, sweet, wholesome life. There are cases where the divorce laws are abused but not nearly so many as the ministers of a great many of our churches seem to imagine."

"Law does not make marriages. The church does not make marriages. Men and women if they are ever married marry themselves. All the law can do is to make a clumsy attempt to protect all the church can do is to recognize and try to consecrate a fact which already exists. But if there is no marriage then it is desecration to keep up the sham."

THREATS TO KIDNAP DAUGHTER DRIVES MAN ALMOST INSANE.

AND CAUSES HIM TO OFFER \$50,000 REWARD.

OSWEGO, N. Y., June 5.—Driven almost to the point of insanity by numerous letters threatening to kidnap or murder his daughter Rosamond John Jay Tonkin, a wealthy and prominent citizen has announced the offer of a reward of \$50,000 for the discovery of the person who has for two years been writing letters to him demanding a large sum of money or dire results. The offer of the reward reveals a story of months of haunting fear which have made life unbearable for the members of the family.

Mr. and Mrs. Tonkin had three daughters. One Virginia, died three years ago. The shock affected the parents greatly. It is said the body was embalmed and kept in the house for nearly eight months when the authorities interfered and it was buried.

Soon after this came the first letter demanding money or threatening harm to Rosamond. Since then the missives have arrived at frequent intervals. The child has been so strictly guarded that she has grown morose and sickly.

Mr. Tonkin showed the letter to the Oswego police, but no clue to the writer could be obtained. Private detectives were employed with no better results. With nerves shattered by the strain Mrs. Tonkin took Rosamond to New York six months ago where apartments were engaged, but the letters followed Mrs. Tonkin and more detectives were engaged. They were unsuccessful as the others had been and finally, broken in health and spiritless Mrs. Tonkin returned to Oswego with the child. Armed coachmen and detectives always accompany Rosamond when she leaves the house.

On May 25th near here, Cora Sweet, a child, was dragged into a lonely field by a farm hand and murdered. The crime stirred the whole city, and the farm hand, who confessed was protected with difficulty. This murder so alarmed Mr. and Mrs. Tonkin that they offered the reward. The belief that it would stimulate each of the letter writer.

The last letter received demanded \$50,000 threatening the death of the daughter if it was refused. None of the letters has told when or how the money was to be paid.

CARDINAL GIBBONS GIVES ADVICE TO WOMEN

WASHINGTON, June 5.—Cardinal Gibbons has thrown down the gauntlet to woman suffragists in an address before the graduates of Trinity College, an institution here for the higher education of women. He said: "Woman should be satisfied with her feminine privileges and not demand the rights of men."

The Cardinal expressed the hope that none of the young women graduates before him would use her college education to enter the ranks of 'suffragists,' and declared the woman who enters politics must pay the penalty of losing some of her gentility and refinement.

You cannot be in the thick of the battle without getting some of the dust," he added. "How can the delicate soul of woman go into the midst of corruption and wrangling of political life without being smirched?"

IN SOCIETY

MISS BERTHA AHNEFELDT, ONE OF THE SCORERS FOR THE WHIST TOURNAMENT WEDNESDAY EVENING AT MAPLE HALL.

HONORS FOR BRIDE TO BE

MISS LESLIE GREEN IS COM-
PLIMENTED
GUEST.

Miss Leslie Green of Berkeley the beautiful young fiancée of Howard Huntington is one of the most popular among the group of brides-to-be, and numerous social favors are being planned for her on both sides of the bay.

Mrs. Frederick McLeod Fenwick was hostess Friday at a delightful informal tea for this charming girl, and the guests included many Oakland people. The reception room at the Fenwick home was decorated with sweet peas and pink carnations, and about fifty callers were welcomed by Mrs. Fenwick and Miss Green, who were assisted in receiving by Mrs. Edwin T. Blake, Miss Elizabeth Huntington, Miss Eleanor Davenport, Miss Florence Hammond and Miss Katherine Glass.

Mrs. H. M. A. Miller gave a dinner to fourteen Saturday evening in honor of Mr. Huntington and Miss Green. Mrs. Charles Butters entertained at her beautiful Claremont home at a large luncheon for the same fair guest of honor.

The date for the Green-Huntington wedding is set for August 19 and will doubtless be one of the most interesting and elaborate events of the year.

INFORMAL DINNER.

Miss Fanny Perkins was hostess Saturday evening at a delightful dinner given at the Country Club. Miss Bessie Haven and her fiancé, Hiram Hall, were the honored guests and a dozen young people enjoyed the affair. Pink roses decorated the table where covers were laid for Miss Haven, Miss Katherine Brown, Miss Alma Perkins, Miss Fanny Perkins, Hiram Hall, Thornton White, Albert Coogan, Cleve Baker and Mr. and Mrs. George E. Perkins, who chaperoned the party.

AN ENGAGEMENT

An engagement of interest to a large circle of friends in this city is that of Miss Nell Wren, daughter of Mr. and Mrs. Stephen Wren of Sacramento, and Harry Snowden Williamson, son of Mrs. Frances Williamson.

The marriage will take place June 14 at the home of the bride's parents in Sacramento, and the young people will make their home in this city. Mr. Williamson is a brother of William F. Williamson and of Miss Carolyn and Miss Frances Williamson and is engaged in business across the bay.

JULY WEDDINGS.

The marriage of Miss Elsa Hespe and Bradford Van Vranken has been set for July 5. Miss Hespe is a San Francisco girl, but has made her home for a few years with her uncle, Frank Laidlaw of 710 Bush street in this city. She is a musician and also an

MANY DATES OF INTEREST

NUMEROUS SMALL AFFAIRS OCCUPY SMART SET—
PERSONALS.

eloquentist of more than ordinary ability.

The groom-elect is the recently appointed Deputy Coroner and has been connected with Henry Diers for several years in the undertaking business. After a honeymoon spent at Santa Barbara, Mr. and Mrs. Van Vranken will make their home on Thirteenth street in this city.

Miss Vida McKean and Dr. Norman Henderson of Alameda will be married July 6 at the home of the bride, 1216 Versailles avenue.

The engagement was announced at a shower party given to the bride-to-be at her home last Thursday evening. Miss McKean has lived in Alameda since childhood and is well known in local society circles. She is a graduate of the local high school and is a musician of recognized ability. She makes her home with her brother, Winfred McKean, assistant cashier of the Bank of Alameda.

Dr. Henderson is one of the best known young professional men in Alameda and has been practicing dentistry for several years. Immediately after the wedding ceremony the bridal couple will leave on a honeymoon trip of several weeks' duration. Upon their return they will make their home in the Island City.

AT LUNCHEON.

Mrs. Frederick Sherman of San Francisco was hostess at a pretty luncheon last Friday in honor of Miss Jean Downey, whose engagement to Hugh Goodfellow was a recent announcement.

AUTO TRIP.

Mr. and Mrs. Thomas Prather, Miss Haight and Sam Bell McKee made up a jolly party of Oaklanders who enjoyed an automobile trip to Byron Springs last week.

BERKELEY WEDDING.

The marriage of Miss Katherine Glass, daughter of Admiral Glass, and Dr. Francis G. Munson of the navy will be one of the summer events. It will be solemnized at the home of the bride's parents in Berkeley.

FOR A VACATION.

Congressman and Mrs. Joseph R. Knowland will leave June 19 for Deer Park Inn, where they will spend a month, taking with them their little son and daughter.

FRICKSTAD-DRAKE.

The culmination of a pretty college romance took place Saturday evening, when Miss Flora Frickstad became the bride of Bryant S. Drake at the Pilgrim Congregational Church, the Rev. Raymond Brooks officiating. The bridesmaids were Miss Virginia Whitehead and Miss Genevieve W.

THIS WOMAN TO INCREASE HER MATRIMONIAL RECORD

***** CHICAGO, June 5.—Grace Snell-Coffin-Walker-Coffin-Layman is reported about to venture on the matrimonial sea for the sixth time. Chicago friends of Amos J. Snell have received word from Los Angeles, where the hyphenated Grace is now living, that she is engaged to a young Californian, Mack Love. The nuptials are expected soon. According to a Los Angeles woman, Mr. Mack is "a handsome boy, about 27 years old, with little money, and who tries to write, but no one ever finds it out, except when told about it."

The woman who gave out the news of the engagement is a former Chicagoan, who is a bosom friend of Mrs. Snell-Coffin-Walker-Coffin-Layman. The wedding will be a quiet affair. When she is Grace Snell-Coffin-Walker-Coffin-Layman-Love, the daughter of the Chicago millionaire will probably live in Los Angeles with her husband. It is rumored that they have been engaged collaborating on the writing of a modern historical novel, with an American love story as one of the principal features.

**GRACE SNELL'S

Mack Love.

INDIVIDUALITY IN PERFUMES IS AN UP-TO-DATE FAD

The man who followed his wife all over the city, from store to store, from house to house and from hotel to hotel, merely by tracing the scent her gloves and gowns had left behind them on chairs, portieres and shop counters, must have been the husband of a modern girl. Almost any fashionable girl of today could be traced by the perfume she uses.

Individuality in perfumes is the thing. It is not enough to have a favorite flower and to stick to the essence of that flower in the matter of soaps, sachets and toilet waters. One must have a secret perfume, a special concoction which none can imitate. Very wealthy women have their soaps, sachets and sweet waters made to order according to special recipe, but if one cannot afford this, she can easily concoct a mixture of her own, which nobody possibly could copy.

One clever girl buys a certain make of violet perfume, another of heliotrope and still another of sandalwood. These in exact quantities she mixes according to a secret method. The result is a delicate, indescribably sweet odor, which you would know anywhere and which, of course, you would instantly associate with the young woman who manufactures it herself. She mixes her sachets in exactly the same way and to match her perfumes. To perfume her bath, she dilutes the mixture of extracts in a larger bottle of alcohol.

Heliotrope and violet of good quality always make a pleasant mixture. Rose and violet also make a fragrant bouquet. Do not, however, try to mix two bouquet odors, such as peau d'Espagne and trefle, or you may get disastrous results. Stick to the simple flower extracts of the first quality, and always let violet or sandalwood play an important part in your mixtures. To perfume your cold cream, melt plain cold cream, pour in some of the extract and let it then cool and harden. Your face powder can be scented in the same way with a bit of sachet and thus your individual bouquet will be duplicated in each of your toilet preparations. The 'fashionish' girl will find pleasure as well as profit in mixing her own perfumes.

son, and the flower girls included the two small daughters of Mrs. William Cremers of Berkeley and the little sister of the bride.

The ushers were Monroe Deutsch, Reuben Kofold, Arthur Price, Herbert Thompson, Ivan Frickstad, and Julius Wolfson.

Mr. Drake was an instructor after his graduation and is now manager of a large chemical works of San Francisco. Although a native of Iowa, he served during the Philippine war with the Oregon volunteers. The bride was one of the most prominent of the Berkeley graduates of this year, she was president of her class last year, took a leading part in all University affairs, was on the staff of the Blue and Gold and was treasurer of the Associated Students. Her home has been in Oakland, 1821 Ninth avenue.

After a wedding trip, Mr. and Mrs. Drake will reside in San Francisco at 2818 Folsom street.

GOING AWAY

Mr. and Mrs. J. S. Dunham, Miss Lucile Dunham, Chas. B. Dunham, Leland Dunham, Dr. and Mrs. G. P. Tate, Miss Dora Tate and Jesse Tate make up a jolly party of Oaklanders who will spend the summer at McCray's.

AT THE FAIR.

Mr. and Mrs. E. J. Reed of 628 Eighth street were the first to register their names in the California building at the opening of the Lewis and Clark Exposition.

Mr. and Mrs. Reed have gone on to New York and will sail June 19 for Europe.

LEAVES FOR EAST.

Miss Mary Hallahan left last evening for Utica, New York, and a large number of friends gathered at the station to say farewell. Miss Hallahan's marriage to Thomas Manion will take place June 14 at Utica, and will be an elaborate affair.

The bride-to-be will spend a few days visiting friends in Los Angeles, where she is well known. She has a host of friends in the cities about the bay who will regret that her future home is to be in New York. Miss Hallahan is a sister of Geo. D. Hallahan of this city.

WHIST TOURNAMENT.

The ladies of the Poinsettia booth of St. Columba's Church Fair announced an elaborate whist tournament to take place Wednesday evening, afternoons and evenings.

June 7, at Maple Hall. Miss W. F. Dolan is chairman of the committee of arrangements, and a good time is assured to all those who attend. A number of valuable prizes are offered to the lucky scorers.

CANTERBURY CLUB

The members of the Canterbury Club, including many prominent Episcopals, will entertain Thursday evening at an elaborate banquet at the Hotel Metropole. This gathering is in compliment to the Right Rev. William Ford Nichols and marks the fifteenth year of the Bishop's work in the diocese.

PERSONALS.

The Tom Magees are planning to build a beautiful new residence on Pacific avenue in San Francisco.

Mr. and Mrs. Alfred von der Ropp left a few days ago for Santa Barbara, and others who will spend vacations at the Potter include Mr. and Mrs. Wickham Havens, Mr. and Mrs. Henry Rosenfeld, and Miss Carrie Nicholson.

Mrs. D. H. Jackson and Miss Katherine Jackson have returned after a year's absence and are at the Metropole.

Miss Josephine Eastland has gone to Memphis, Tenn., for a visit.

Mr. and Mrs. Charles Bliss will open their summer house at Lake Tahoe in a few days and will have their guests Miss Alice and Miss Knowles.

P. L. P. CLUB

One of the notable events of the year on this side of the exhibition Friday evening, and sketches by W. who has just returned from months' stay among the Indians of Northern Arizona.

This collection of sketches of work contains some of the best expression, and the visitors and artists Friday were enthusiastic in their praise. The great object of the Palette, Pen Club is to establish a permanent gallery on this side of the bay and the cause is receiving hearty support and encouragement.

Mr. Rollins' pictures will remain on exhibition in the P. L. P. clubrooms until Wednesday, and as the artist returns on the 15th to the scene of his labors in Arizona, this will probably be the last chance Oaklanders will have to see them. The clubrooms will be open to the public tomorrow afternoon and Monday and Tuesday to take place Wednesday evening, afternoons and evenings.

BOATING SPORTS BOXING BASEBALL

BOATRACES TO BE A FEATURE OF THE FOURTH OF JULY

The athletic committee of the Fourth of July celebration committee will meet tonight and in all probability ask the Reliance Club to take charge of the athletic events for that day.

The events will include bicycle races, foot races and boat races. To make sure that the events will be run off without any waits, the Reliance Club will ask members of other club to help out.

Al Kuhn of the Alameda Boat Club has been so successful with the regatta's under his auspices that he will in all probability be asked to take charge of the boat races.

After the races last year a few of the rowing clubs that lost claimed that the Alameda Boat Club had "fixed" the races so that the last prizes were put up on the races on which the Alameda's had a "chance". This however, is without foundation, as the prizes offered were all the same value and most of them called for merchandise.

For this reason the women felt a little disappointed that the committee would allow anything for the regatta. The committee after carefully considering the matter, has concluded to have boat races and to ask the president of the Alameda Boat Club to help out in handling them. It would be unjust to cut the boat races out as they certainly deserve a place among amateur sports and generally draw big crowds. Over 1200 went to Vallejo Decoration Day to witness a general amateur regatta.

The Alameda Boat Club has always had the best kind of a reputation for clean amateur sport and as the charges made against the club are so absurd the club feels the public will pay no attention to them.

OF INTEREST TO HANNAH ELIAS THE AUTO OWNERS KEEPS THEM GUESSING

NEW YORK, June 5.—Hannah Elias, the aged John R. Platt's \$500,000 Ethiopian charter, has emerged from her long retirement, and is now an almost a daily attendant to the races.

With the opening of the season at Gravesend she made her appearance in the grandstand in the company of a number of her friends, her betting commission. She is most particular about getting a seat in the third or fourth row, directly behind the judges' stand.

The woman dresses entirely in black. Her clothing is of the most expensive material, however, and always over-trimmed with costly lace.

There has been some speculation at the track as to the identity of the betting commissioner, who looks like a college youth, with red cheeks, curly light hair and a general appearance of being a very young man.

HE'S A VERY WISE YOUNG MAN.

Tony Hart caught the young man in the betting ring the other day and endeavored to scrape an acquaintance with him. "What looks good?" said Tony, with his blandest smile, and Tony can be bland when the occasion demands one of the old grandstand boys, you know.

"Sir, I really don't know you," replied Hannah's check-faced henchman.

"The kid has been cashing some big odds," said Hart yesterday. "He usually bets at \$500 a crack, mostly long shots. Always has his mind made up before he hits the ring, and I warrant his mistress is buying some high-priced information."

Hannah Elias is still living at 238 Central Park West, the last of her realty purchases with money obtained from her late husband's estate. Tony, the ever faithful Japanese butler, is still the custodian of the old grandstand boys, you know.

GOING TO LONG BRANCH.

Just at present Hannah Elias is engaged in a legal conflict with her former counsel, Washington L. Braun, who is before a referee seeking to get an award of his fee. Hannah's new lawyer is Daniel Daly, brother of Eugene Daly, who figured in the "Black and Tan" case.

The original suit of John R. Platt is still pending in the Appellate Division of the Supreme Court, although the hand of the law has been withdrawn from Hannah's free use of her properties and moneys.

In a few weeks Hannah Elias will go to Long Branch, where she has rented a cottage, the same she had last year.

Since it has been announced that the Importers and the accessories men will exhibit at the show in Madison Square Garden, under the auspices of the Association of Licensed Automobile Manufacturers, the prospect of there being three or four automobile shows in New York next January has vanished. That there will only be two shows seems to be settled. The second show will be held by the Automobile Club of America, in an armory.

The unlicensed makers are expected to take spaces at the club's show.

Henry Fournier writes from Paris that he is coming here to compete on the tracks with a Hotchkiss racer of 100 horsepower.

Either a very tame contest, and slow time, due to extreme caution by the competitors, or a series of casualties and tragedies, rivaling those of the sanguinary Paris-Madrid race of 1903, is in prospect on July 5, when the Bennett cup race is run in France. The 240.3 miles to be traversed, there are just 140 turns, some of them so sharp and narrow that if a car stops, it will be impossible for the one behind to turn out or to see the danger in time to avoid a collision. There are five stretches on the course where the road is wide enough for one car to pass another.

In the estimation of Louis Chevrolet, who made a mile in 52.4-5 seconds, with his 90 horse power Fiat, on the Morris Park track, at the opening meet, one record of any sort makes a challenge to race any one in the world for the championship.

An automobilist wearing a pair of goggles having a separate lens for each eye, attracted attention on a road house porch and one man had the courage to ask for an explanation. It was as follows: "Why, when one is driving the way I drive, the sand and the very small stones are thrown up with great force. If one sails for my eye, it is deflected, and the inner lens saves my eyes." The listener, wondering what famous racing man he was, and followed him gaily when he walked to the hotel shed and there cranked up his engine and started away in a 7-horsepower Oldsmobile.

The American Motor League membership is increasing at the rate of six a day.

President Roosevelt has had just three automobiles and two of these were not premeditated, but arranged for by reception committees. His first voluntary trip in a motor car was made when he was in the White House, and he was so much interested in the thing that he sought something more strenuous for the trip than a runabout and went and hired a Columbia of 40 horse power. He is said to have enjoyed the ride, although his mount did not buck any.

The Portland-Seattle game scheduled for yesterday at Portland was called off on account of the wet grounds.

It was clearly demonstrated by the Oakland hired hands yesterday that you don't always have to hit the ball safely to win games.

For instance, in the afternoon contest Tacoma gained eleven bingles and Oakland had seven, still Oakland was on the long end of a 5 to 1 score.

The second triple play of the 1905 season was made yesterday by Franks, Kelly and Stieb.

McLaughlin connected with one that carried him to first, then Mike Lynch was given a pass, then Charlie Graham. He clouted the ball on the nose and sent it straight at Franks, who whipped it over to Kelly and McLaughlin was easily shut off. Then Kelly threw the ball to Stieb on first and the triple play was complete.

The morning game also went to Oakland, pitcher Hogan easily putting it over Keefe.

During the course of the game Kruger wrenched his ankle and Cook took his place.

LOS ANGELES, June 5.—Los Angeles called Honey last yesterday, and won 5 to 1. The local team pulled off one that was lightning fast. Toran was injured, while sliding to the plate in eighth inning, and was replaced at short by Brushner, Ross going to left field.

WIZARDS WIN FROM STARS AGAIN

On Saturday the Wizards were to play the Tenth Street Stars, but the latter failed to show up.

On Sunday the Wizards defeated the Fifth Street Stars for the second time, by the score of 22 to 7.

The features of the game were W. Leighou's and P. Ringolsky's home runs, and P. Struckman's and S. Sapiro's three-baggers, all of which were made with men on bases. C. Blumenthal made a one-handed catch of a liner. A. Hughson played a good short.

Address all challenges to Alfred E. Hughson, captain and manager, 510 Sixth Street. Sunday games from teams averaging 15 years of age or under are desired.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25 cents.

This is BUCK FRANKS, Oakland's short-stop, who started what happened to end in a triple play in yesterday's afternoon game.

WHAT DO YOU THINK OF THIS?

When the Portland team won a series of straight victories and managed to creep out of the cellar in the percentage column, here is what the Portland telegram printed:

- Garvin
- Jones
- Householder
- McCreDie
- Van Buren
- Schlaefly
- Essick
- Cates
- Mitchell
- McLean
- Runkle

- Murphy

IT TAKES 10 INNINGS TO DECIDE

SALINAS, June 5.—After a sensational ten-inning game yesterday afternoon Salinas defeated the Gallagher-Marsh team of San Francisco by the score of 5 to 4. In the fifth inning the visitors made two runs, the score standing 4 to 2. When Catcher Lauritzen of the home team attempted to steal second, he turned his ankle badly spraining it. When Salinas went to bat in the ninth inning they scored twice, tying the game. In the tenth inning Salinas scored the winning run, with two men on bases and none out.

CHAMPIONSHIP IS WON BY GARDNER

Carl Gardner, the challenger, won the championship of San Francisco from Percy Murdoch of Alameda, the defender, on the courts of the California Tennis Club yesterday. The match was scheduled to go five sets, but at the conclusion the fourth Gardner was pronounced the winner.

Murdoch did not play his game, but, nevertheless, Gardner deserves all the credit that goes with the winning of a championship match.

MR. ZIGNEGO WINS BIG PURSE

Ladies' day championship stake was the leading card at the coursing at Union Park yesterday afternoon, and it amply justified its important place, for the rounds in this contest were especially well contested, and the winning round, Dr. F. P. Clark's Mr. Zignego, furnished excitement, and won a popular victory by defeating all his competitors, these being La Rosa, the sterling old favorite Pocatelli, Freeport and Pancho. The purse for the winner in this stake was \$225.

The deciding course was run between Mr. Zignego and Pancho in 32 seconds, the scoring being 5 for Zignego and 3 for Pancho.

Furious Fighting.

"For seven years," writes George W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won and cured my diseases by the use of Electric Bitters. I unhesitatingly recommend them to all and don't intend in the future to be without them in the house. They are certainly a wonderful medicine to have cured such a bad case as mine." Sold under guarantee to do the same for you, by Osgood's drug stores, Seventh and Broadway and Twelfth and Washington, at 50 cents a bottle. Try them today.

PROPOSE A LARGE STADIUM FOR OAKLAND ATHLETES

The Oakland Wheelmen have received a communication from a Salt Lake City promoter who asks if it would be profitable to erect in this city a large stadium, the principal feature of which would be a fine bicycle track.

The promoter suggests that if desirable, the track could include a field large enough for baseball, football or any other athletic sports, and that it might be covered over, and thus afford a proper arena for pugilistic encounters.

The Salt Lake man has selected Oakland, Los Angeles and San Jose as the most desirable three sites for such a structure, and is looking for co-operation and support in one or another of the three cities.

MISSING OCEAN YACHT RACE APACHE IS FINALLY SIGHTED

LONDON, June 5.—The bark-rigged yacht Apache (owned by Edmund Randolph, New York Yacht Club, and the last contestant in the Kaiser cup transatlantic race) was sighted fifteen miles west of the Lizard at 8:20 o'clock this morning.

THE LIZARD, June 5.—The American yacht Apache, the last contestant in the race for Emperor William's cup, finished at 10:20 this morning.

MITCHELL HAS SOMETHING TO SAY. WHAT SEATTLE THINKS OF TEAM.

NEW YORK, June 5.—Charles Mitchell, the ex-heavyweight champion pugilist of England has arrived in this city and is occupying his old quarters at the Delavan Hotel. Mitchell has nothing but praise for California and the Native Sons for the right royal manner in which he was treated by everyone on the Pacific coast.

Before returning East Sir Charles visited the Puget Sound country, taking in Seattle and Vancouver. He was very much surprised at the wonderful progress that has been made in recent years in the Northwest, and predicted great things for Portland, Seattle and other towns in the State of Washington. Mitchell has traveled extensively in the United States in the past twenty-two years, and while he is as well known in this country as he is in his own, and perhaps knows more about the interesting places in Uncle Sam's domain than most Americans do, still he was not prepared to find Seattle such a fine, up-to-date, bustling city. Charles has been several days in Seattle visiting his old pals, the Considine brothers, John and Tom, who did everything they could to make the Britisher's visit a pleasant one.

LIKES THE NORTH.

In talking about the energy and progressiveness displayed by the citizens of the Puget Sound country, the ex-heavyweight champion stated that it would not have required very much coaxing in order to have him pitch his tent and remain there altogether, so delighted was he with the country and its people.

WHITE HOMESICK.

In speaking of the Britt-White contest, wherein the Native Son was awarded the division in twenty rounds by less than twenty seconds, he thought James did not do himself justice, and believed he could do better if he would reconcile himself to his surroundings, fight his home and family for the third time, and only think of beating his opponent.

BOUT WITH JOHN L.

As for his bout with Sullivan, Mitchell feels that the big fellow is on the level in his desire for a match. He does not believe that John L. would have one chance in a hundred to beat him, but says there are thousands of people in that country who honestly believe that Sullivan can still fight, and would back him in a go with Mitchell.

SEVERAL JOBS OFFERED TO KLOPF.

Of course," says Charles, "they know nothing about Sullivan's physical condition, and are going entirely on what the big fellow tells them. So far as I am concerned, I think it would be a shame to wallow him, and besides, I would consider it dangerous to hit him a hard blow on account of his bad condition of his heart. Sullivan's heart must be in a wretched condition, and it doesn't require much of a blow to snuff a man out when he is in that shape."

VACATION TOURS.

The excursion parties which have been run during the past few years from California to Europe, known as the Baker Tours, have been so successful that they will be operated during the coming summer. The tour will include England, France, Switzerland, Italy, Austria, Germany (the Rhine), Belgium, also a second tour to the United States, Canada, and Russia. These instructive tours are in charge of able, reliable and experienced men, and the rates are very low, and the service excellent. The route in both directions will be via the Southern Pacific. Mr. Frank Baker of New York will meet the party at various points en route, and lectures will be given, increasing the value and interest of the tour. For further particulars, pamphlets, etc., address any agent Southern Pacific, or Frank Baker, Ocean Park, California.

MILLINERY REDUCED

Large Eastern order of fine trimmed hats, arriving too late for Easter trade, together with our own stock of stylish and popular millinery, will be placed on sale at greatly reduced prices.

AUTOS ARE DESTRUCTIVE GOOD ROADS.

Streets Superintendent of Alameda Makes Some Interesting Investigations.

V. M. FRODDEN, STREET SUPERINTENDENT OF ALAMEDA.

ALAMEDA, June 5.—V. M. Frodden, Street Superintendent of Alameda, has been making an interesting study of the effect of automobiles on the macadamized streets of the city. He was among the first to discover that the autos were very destructive to the streets. He found that the suction from the rubber tires caused by the swift pace of the autos has a tendency to loosen the fine particles on the road. Mr. Frodden is a great believer in oil for the roads and he hopes to make many improvements in the streets this summer.

WILL CELEBRATE AT LOS GATOS

BUNKER HILL ASSOCIATION
PLANS FOR AN INTERESTING
DAY.

Editor TRIBUNE: At the last meeting of the executive committee of the Bunker Hill Association, the continued deep interest and activity hitherto displayed by each sub-committee augurs a splendid celebration of the 130th anniversary of that famous engagement at Bunker Hill.

The celebration this year will take on more of the military character than hitherto. The first Corps Cadets, California Light Infantry, Company A, Captain Leland S. Ramsdell commanding, and Company B, Fred W. Roskamp commanding, with their band of twenty-four pieces and their drum and bugle corps, will march along Market and Third streets to the special train awaiting them on the morning of Saturday, June 17.

From the demand in various directions for tickets it is estimated at this moment that there will be not less than two thousand people leaving San Francisco to take part in the celebration at Los Gatos. Besides arrangements have been made for the people of Oakland, Alameda and Berkeley to take special trains awaiting them at the narrow-gauge Oakland mole. On the arrival of all these trains at Los Gatos, amid the flying of flags, banners and bunting, the procession will be formed in line again, Colonel A. S. Hubbard being grand marshal, and under the escort of the First

Corps Cadets and their band. The Bunker Hill Association, the Sons of the American Revolution, the California Society of Planners, the veterans of the United States Army of the Republic and other patriotic and fraternal organizations will then march to Bunker Hill Park, where they will be reviewed by Senator George C. Perkins, president of the day, and where they will listen to the speech and song dedicated to those who fought and died at Bunker Hill.

The Hon. Samuel M. Sherridge has been selected to voice the inspiration of that occasion.

The reception and grounds committee, as well as the games, racing and dancing committees, will not be outequaled, according to their reports, in the entertainment and pleasure they have provided for the guests and all who attend the celebration.

To the strains of the large military band dancing will consume the entire afternoon at the pavilion.

Athletes from the athletic societies and from the high schools will vie with one another in their various feats of strength and racing for handsome prizes that have been graciously given by the merchants of San Francisco.

The day will practically be a holiday at Los Gatos, and from what we estimate from those who will attend the celebration, the celebration will be a grand success. The following are members of the committee: Alexander S. Ellis, J. Mora Moss, Edwin Boush, Colonel A. S. Hubbard, S. W. Holaday, John A. Spear, John M. Barnett, Senator George C. Perkins, A. C. Oulton, Captain Leland S. Ramsdell (Company A), Captain F. W. Roskamp (Company B), Quartermaster Sergeant G. Stansberry (Company A), Corporal C. Becker (Company A), George Bartridge, S. H. Roberts, Mrs. L. J. Hardy, Mrs. S. W. Deming, Mrs. J. W. Perry, Mrs. Anne E. Nevers, Alfred Wilkie, Professor E. Knowlton, Robert Collier, Ernest A. Lee, Robert Varandach, H. E. Teller, Martin A. Lathrop, Archie De Marnie, George W. Caswell.

Yours very truly,
GEORGE W. CASWELL,
Secretary Bunker Hill Association.

Physicians Advise convalescents and all who need Strength and Health to take the ideal Food Drink.

MONEY TAKEN BY LONE ROBBER

FRAN RICHARDSON AND HIS
LADY FRIEND ARE HELD
UP IN PARK.

SAN FRANCISCO, June 5.—Frank Richardson, who lives at 920 Poplar street, Oakland, and is employed by Smith & Co., plumbers, Clay and Montgomery streets, this city, was held up by a lone footpad in Golden Gate Park on Saturday night and \$39.50 taken from him. Richardson was accompanied by a lady friend, but no violence was offered her by the highwayman.

Richardson and his friend had been walking through the park, and shortly after 10 o'clock they sat on a bench near the "Cyclists' Rest." They had been there a few minutes when a man with his hat pulled over his eyes stepped up to them and presenting a revolver at Richardson's head told him to throw up his hands and not make a noise. He told Richardson's lady friend not to scream or make a scene.

Richardson's hands went up in the air and the footpad went quickly through his pockets, taking \$35 in gold and \$4.50 in silver. With another warning to the man and woman not to make an outcry the footpad disappeared in the bushes. Richardson and his lady friend walked hurriedly away in search of a policeman. They met Policemen G. C. Badenbauer and W. F. Buckley and told the story of the hold-up. Richardson described the footpad as 5 feet 8 inches tall, dressed in a sack coat and wearing a soft hat. The victim was unable to get a look at the footpad's features. Richardson positively refused to divulge the name or address of his companion.

COMMITTEE THANKS THOSE WHO HELPED

The general Memorial Day Committee of 1905 of the G. A. R. held the last session Saturday night for the purpose of closing up the business attendant upon that occasion.

Resolutions were adopted expressing the thanks of the patriotic organizations, whose representatives the members of the committee are, to all of those who contributed aid in connection with the observance of Memorial Day.

The committee adjourned to meet at the call of the chairman some time during the early months of next year.

Before the close of the session provision was made for sending a request to the commanders of the patriotic organizations that they take proper steps to have the members of the 1905 general committee appointed in time to take up the work next year.

HE GAVE THE PROOF.
Congressman Livingston of Georgia tells this story of his boy, George: "One day I said to him, 'Mamma says you've been very naughty today, sir; what's the matter?' 'Pop,' he replied, seriously, 'I think ma's prejudiced against me. Yesterday she told Aunt Sarah I was just the image of you.'"

50c. Bottle Free.
If you need Liquezone, and have never tried it, please send us this coupon on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it today, for it places you under no obligation whatever.

Liquezone costs 50c and \$1.
CUT OUT THIS COUPON
this offer may not appear again. Fill out the blanks and mail it to the Liquezone Company, 453-454 Wabash Ave., Chicago.

IMPROVE SERVICE

Corporation Provides Increased
Facilities.

BERKELEY, June 5.—Desirous of giving citizens of the Second Ward better fire protection and at the same time giving the residence section along Arch street better fire facilities, the Contra Costa Water Company is now engaged in laying a six-inch main along Arch street, from Rose street to Hearst avenue and thence to Oxford street, down which it will extend to Allston and thence up to Piedmont avenue, thereby giving the territory lying to the north and south of the University grounds a much higher pressure than now exists.

The water furnished will come from the Berryman reservoir.

On the main along Arch street four fire hydrants will be installed, one at Vine street and the others at Cedar and Virginia streets and Hearst avenue. On the other side of the campus hydrants have already been established. These, however, will be doubly as effective as at the present time on account of the higher pressure from the new main. The work of installing the new main will be completed in several weeks. The improvement will be greatly appreciated by residents about the campus who heretofore have expressed the fear that the low pressure hydrants would not prove effective in case of a serious fire.

The water company attempted some time ago to extend its North End main across the campus and of the campus in order to reach the Second Ward, but failed to do so on account of the action of the University Regents. To allow the main placed on the campus the Board of Regents made so many conditions that the water company did not wish to take advantage of the short cut and decided to extend the main around the campus, which work is now in progress.

This main will be connected with the Berryman reservoir and the pressure can be made as great as the plumbing in the houses will permit. In the section below Grove street there has been complaint on account of high water pressure causing the bursting of water pipes and thus resulting in damage.

The water company is not required to maintain a pressure for fire purposes, according to a decision of the Supreme court, but the company is going to increase the pressure in order to give the residents a good feeling between this city and the company. As between those who want high pressure for fire protection and those who object to high pressure on account of damage to plumbing the company has rather a difficult question to settle.

While Oakland has been in a water fight for years, Berkeley has been fortunate in having had Town Trustees who have handled the water question in a manner satisfactory to the people and without doing the company any injustice.

LANDERS STEVENS
AS THE KING

Tonight at Ye Liberty Playhouse will begin the fifth and last week of the successful drama "Mizpah" by Ella Wheeler Wilcox and Luscombe Searell. Its success is the talk of two cities and next season it will be produced in both the theatrical centers of the world, New York and London, by a cast of exceptional brilliancy, and surrounded by elaborate scenic productions. In this week's production Miss Adelaide Block will again be seen in her splendid character of Esther and Frank MacVicar will be the Mordecai and George Woodward the Harbors.

Landers Stevens created a tremendous sensation in San Francisco by his wonderfully strong impersonation of the role of King Ahasuerus and he will undoubtedly more than duplicate that success here this week. It is said of his work that he makes the audience forget the fact that he is a predecessor and gives him greater strength. At least it will make an interesting comparison to none should miss this last opportunity of seeing "Mizpah."

Manager Bishop, who also directs the affairs of the Majestic Theater across the bay where Mrs. Pike and her clever company are presenting "The King of the Kings" this and next week, has arranged to place a few of the choicest seats for every performance on sale at the box office of Ye Liberty Playhouse for the benefit of his Oakland patrons.

OUR SENSIBILITIES DEADENED.
(Rosalind Field in Chicago Post.) Considerable clamor has been caused by the "huge profits" in gas, which is made at a cost of thirty-one cents and sold for 41. But very little has been said about ice, which is made for less than thirty cents and sold for 41. Beyond a general and rather meaningless inquiry "How would you like to be the ice king?" the question has excited little attention. Possibly the ice king of Chicago spring has deened our sensibilities.

ON TRIAL FOR HER LIFE

WOMAN MUST ANSWER A MURDER CHARGE BEFORE
JURY.

KANSAS CITY, June 5.—The trial of Mrs. Aggie Myers, charged with complicity in the murder of her husband, Clarence Myers, a pressman, at their home in this city in May, 1904, was called today at Liberty, Mo., having been taken to Clay county on a charge of venue.

Frank Holtman, who, it is charged, was Mrs. Myers' confederate in the murder, who was tried, convicted and sentenced to be hanged for the crime, will be a witness for the State against Mrs. Myers. Mrs. Myers will be a witness in her own defense. The defense will try to prove that there was no motive for Mrs. Myers killing her husband. The State will try to prove that Holtman and Mrs. Myers were infatuated with each other and that they killed Myers so they might marry. Mrs. Myers still adheres to her original story that her husband was killed by negro burglars. The murder was most atrocious, Myers' body being hacked in a horrible manner. Holtman was arrested at Butte, Mont., where he had fled.

A SINGLE SET COSTING \$1
Of Coughs, Colds, Croup and Whooping Cough is often sufficient to cure Croup.

GREAT SPEED WAR BETWEEN RAILROADS

CHICAGO, June 5.—The greatest speed war in the history of railroading is likely to be waged between the Pennsylvania and New York Central lines. Official announcement has been made that the Pennsylvania management had decided to put two new Chicago-New York trains into service within two weeks, and that they will make the run in eighteen hours. The aggressive policy of the New York Central line makes it almost an assured fact that they will not permit the Pennsylvania to beat them on speed between Chicago and New York.

Before determining to put an eighteen-hour train into commission the Pennsylvania officials made up a special and made a trial run between the two cities. It was found that an eighteen-hour schedule could be made with comparative ease, and railroad officials say there is little doubt that should a speed war result the time on both roads could be reduced to sixteen hours without materially increasing the dangers of road travel. To do this, however, would necessitate excessive cost in the matter of sidetracking and fully forty minutes ahead of the flyer. It is understood that orders have been issued by the operating department of the Pennsylvania to clear the track ahead of the Pennsylvania special thirty minutes.

The slow time which will be necessitated by the removal of the division of the road will, it is stated, make a schedule calling for sixty or seventy miles an hour for the portion of the track between Pittsburgh and Chicago. The new train will run through without stops.

We Offer \$1,000

For a Disease Germ That Liquezone Can't Kill.

On every bottle of Liquezone we
offer \$1,000 for a disease germ that it
cannot kill. We do this to assure you
that Liquezone does kill germs.

And it is the only way known to
kill germs in the body without killing
the tissues, too. Any drug that kills
germs is a poison, and it cannot be
taken internally. Medicine is almost
helpless in any germ disease. It is the
fact which gives Liquezone its worth
to humanity; a worth so great that,
after testing the product for two years,
through physicians and hospitals, we
paid \$100,000 for the American right.
And we have spent over one million
dollars in one year, to buy the first
bottle and give it free to each sick one
who would try it.

Acts Like Oxygen

Liquezone is not made by compound-
ing drugs, nor is there any alcohol in
it. Its virtues are derived solely from
gaseous oxygen gas—by a process
requiring immense apparatus and 15
days' time. This process has, for more
than twenty years, been the constant
subject of scientific and chemical re-
search.

Liquezone goes into the stomach, in-
to the bowels and into the blood. No
germ can escape it and none can re-
sist it. The results are inevitable, for
a germ disease must end when the
germs are killed. Then Liquezone, act-
ing as a wonderful tonic, quickly re-
stores a condition of perfect health.
Diseases which have resisted medicine
for years yield at once to Liquezone,
and it cures diseases which medicine
could never cure. Here the people you
meet—wherever you are—can tell you of
cures that were made by it.

Germ Diseases.

These are the known germ diseases.
All that medicine can do for these
troubles is to help Nature overcome
the germs, and such results are indi-
cated and uncertain. Liquezone attacks
the germs, wherever they are. And
when the germs which cause a disease
are destroyed, the disease must end,
and forever. That is inevitable.

Asthma—Anemia—Hay Fever—Influenza
Bronchitis—Kidney Diseases
Bright's Disease—La Grippe
Bright's Disease—Leucorrhea
Bright's Disease—Liver Troubles
Bright's Disease—Malaria—Neuritis
Bright's Disease—Many Heart Troubles
Bright's Disease—Piles—Pneumonia
Bright's Disease—Quinsy
Bright's Disease—Rheumatism
Bright's Disease—Scrofula—Syphilis
Bright's Disease—Dysentery—Diarrhea
Bright's Disease—Stomach Troubles
Bright's Disease—Throat Troubles
Bright's Disease—Tuberculosis
Bright's Disease—Fevers—Gall Stones
Bright's Disease—Tumors—Ulcers

Gout—Gonorrhea—Venereal Diseases
Gonorrhea—Gleet—Women's Diseases
All diseases that begin with fever—all
inflammation—all catarrhs—all contagious
diseases—all the results of impure
blood.

In nervous debility Liquezone acts as
a vitalizer, accomplishing what no drugs
can do.

If you need Liquezone, and have
never tried it, please send us this
coupon on a local druggist for a full-size
bottle, and we will pay the druggist
ourselves for it. This is our free gift,
made to convince you; to show you
what Liquezone is, and what it can do.
In justice to yourself, please, accept
it today, for it places you under no
obligation whatever.

Liquezone costs 50c and \$1.
CUT OUT THIS COUPON
this offer may not appear again. Fill
out the blanks and mail it to the
Liquezone Company, 453-454 Wabash
Ave., Chicago.

My disease is
I have never tried Liquezone, but
you will supply me a 50c bottle free if
I will take it.
Give full address—write plainly.
Any physician or hospital not yet using
Liquezone will be gladly supplied for a
test.

practically certain. If the teamsters agree to arbitrate the question of the right of the team owners to make deliveries to strike bound houses, the decision, it is conceded, will be in favor of the team owners, whose contract with the drivers provides that so long as they shall further the interests of their employers. With the team owners making deliveries to all the concerns involved in the struggle, the strike, it is asserted, would lose its force at once. The Truck Drivers Union, with which the team owners have a contract, will meet tomorrow night and vote on the arbitration question.

The Commission of Team Owners' Association, which has taken action similar to that of the Team Owners' Association, has confined the arbitration question to the right of its members to take produce from the express cars and deliver it to the various markets. The Commission of Truck Drivers Union will vote on the arbitration question tomorrow night.

for breakfast and never before did I know what a charming flavor a breakfast food can have."

The concentration of nourishment and a certain health-maker.

NEW YORK, June 6.—A dispatch to the Herald from Berlin asserts that what is claimed as "the highest authority" that an intrigue is being actively worked in China, backed by powerful Chinese officials, the object of which is to withdraw, forcibly or otherwise, the concession to the American-China Development Company (in which New York and London are interested) for the right of building all the important railroads between Hankow and Canton.

The withdrawal of the concession, it is intended, the correspondent declares, will be the first strong step towards closing the "open door."

Of a similar nature were in circulation last January when it was said that the Chinese Government threatened to annul the franchise, because the American company would be a controlling interest in a European.

Mrs. D. H. Partsch of 2001 Lincoln street, has gone to Monte Rio to spend the summer.

Clara Clough left yesterday for Tacoma, where she will spend the summer with her sister.

Mrs. C. H. Buohm and children left today for San Jose, where they will spend several weeks.

H. E. Jewett and family of 2511 Benton avenue left this morning for Eugene where they will spend the summer.

Mrs. Arthur Wallace is spending the summer in Berkeley. She recently enjoyed a pleasant visit to relatives in Tukwila, and is greatly improved in health.

Mrs. Merrill Miller who has been

Carters Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials of 25 cents; five for \$1. Sold by druggists everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.
